WARRANT FOR ANNUAL TOWN MEETING 1966

Commonwealth of Massachusetts
Middlesex, ss.

To any Constable of the Town of Weston, Greeting:

In the name of the Commonwealth you are hereby required to notify and warn the voters of said Town, qualified to vote in elections and town affairs, to meet in the Town Hall in said Town on Saturday, the twenty-sixth day of March, 1966, at 8 o'clock a.m. to act on Article 1 of this warrant; and to meet in the auditorium of the Senior High School in said Town, and also in the gymnasium of the Senior High School if the number of voters in attendance shall exceed the capacity of the auditorium, on Monday, the twenty-eighth day of March, 1966, at 8 o'clock p.m. to act on the remaining articles of this warrant.

Article 1. To bring in their votes for the following town officers to be voted for on one ballot:

	For term of
A moderator	One year
One selectman	Three years
One member of the board of public welfare	Three years
One assessor	Three years
One member of the school committee	Three years
A treasurer and collector	One year
One library trustee	Three years
One member of the board of health	Three years
One commissioner of trust funds	Three years
Three measurers of lumber	One year
One water commissioner	Three years
One member of the planning board	Five years
A tree warden	One year
Two members of the recreation commission	Three years

And to give their votes Yes or No on the following question which will appear on the ballot: "Shall the town distribute to its insured employees, after deducting the town's total administrative cost, the balance of any group insurance dividend which shall be based upon the employees' proportionate share of the total premiums paid for all insurance coverages?"

The polls will be opened at 8 o'clock a.m. and may be closed at 6 o'clock p.m.

Article 2. To raise and appropriate such sums of money as may be necessary to defray the costs of government and other town charges for the current year; and to fix the salaries and compensation of elected officers of the Town for the current year.

Article 3. To authorize borrowing of money in anticipation of revenue and issuance and renewal or refunding of a note or notes therefor.

Article 4. To transfer money from the overlay reserve fund to the reserve fund.

Article 5. To appropriate money from available funds for the purpose of deduction by the assessors in determining the annual assessment of taxes in the current year.

Article 6. To appropriate for the support of the Public Library the dog license refund received in the current year and available money from State aid for the Public Library.

Article 7. To appropriate money from available funds in anticipation of state and county reimbursement for chapter 90 highway maintenance and construction.

Article 8. To appropriate money, to be provided by borrowing and/or by taxation and/or from other sources, for laying or relaying water mains, and to authorize the issuing of bonds or notes.

Article 9. To take and to authorize any and all lawful action appropriate to the establishment of a sewage collection, treatment and disposal system in the central part of the Town, including (without limitation of generality) establishment of a committee to carry out the project, and to exercise the powers and authority of a board of sewer commissioners pending further action by the Town in this regard; authorizing construction and installation of pipes, mains, treatment plant, disposal area, pumping and other equipment, and other facilities; authorizing acquisition of land or interests in land by purchase, eminent domain, or gift; transferring the care, custody, management and control of town owned land or any interest therein; appropriation of money, to be provided by borrowing and/or by taxation and/or from other sources, and authorizing the issuing of bonds or notes; determining whether the Town shall bear the whole or a portion of the cost of the project and, if a portion, what portion, and determining the method or methods by which any portion not to be borne by the Town shall be provided; authorizing engaging in the project in cooperation with the Federal Government pursuant to any applicable State or Federal law or laws, and authorizing any action incidental to such cooperation; authorizing action to secure a grant or grants of money for the project under such Federal law or laws, acceptance of the grant or grants, and use of the granted

money for the project; and authorizing action to secure approval of the project by public officials.

Article 10. To discharge the special sewage study committee established in 1965.

Article 11. To authorize construction and original equipping and furnishing of a new fire station on the South Avenue fire department lot; and to appropriate money for such purpose, to be provided by borrowing and/or by taxation and/or from other sources, and to authorize the issuing of bonds or notes.

Article 12. To authorize construction and original equipping and furnishing of a new fire station and a new police station on a parcel of the Town's land, not exceeding three acres in area, located at the southwest corner of Wellesley Street and the Boston Post Road By-Pass; to appropriate money for such purposes; and to transfer the care, custody, management and control of such parcel of land from the school committee to the board of selectmen for fire department purposes and police department purposes.

Article 13. To discharge the special fire-police study committee established in 1965.

Article 14. To appropriate money, to be provided by borrowing and/or by taxation and/or from other sources, for the construction and original equipping and furnishing of a new public library building on the land of the Town known as Lamson Park, and to authorize the issuing of bonds or notes; to authorize engaging in said project in cooperation with the Federal Government pursuant to Acts of 1945, chapter 74, as amended, and the Federal Library Services and Construction Act, and to authorize action incidental to such cooperation; to ratify action heretofore taken to secure a grant of money for said project under said Federal Act, to authorize further action to secure the grant, and to authorize acceptance of the grant and use of the granted money for said project; and to authorize action to secure approval of said project by public officials.

Article 15. To authorize acquisition by purchase, eminent domain, or gift, for public school purposes, of not more than fifty acres of the land of the Trustees under the will of Charles J. Paine adjoining on the southeast the senior high school land of the Town; and to appropriate money for such acquisition, to be provided by borrowing and/or by taxation and/or from other sources, and to authorize the issuing of bonds or notes.

Article 16. To authorize construction and original equipping and furnishing of a new public junior high school building and a new public school building for physical education on the present senior high school land of the Town and/or land which shall have been acquired by the Town pursuant to authority granted under Article 15 of the warrant for this meeting; and to appropriate money for such construction and original equipping and furnishing.

Article 17. To discharge the special school plant study committee established in 1965 and the special school building committee established by the vote adopted at a town meeting on March 31, 1952, under Article 18 of the warrant (the building committee for the Country School).

Article 18. To accept either or both of layouts of Colchester Road and Fields Pond Road as public town ways made by and described in orders of the selectmen adopted on March 17, 1966, on file in the office of the town clerk.

Article 19. To accept an alteration of Brown Street made by and described in an order of the selectmen adopted on March 17, 1966, on file in the office of the town clerk.

Article 20. To amend the vote adopted at a town meeting on October 7, 1959, under Article 1 of the warrant, appropriating money for the construction and original equipping and furnishing of a new public high school building, by reducing the amount authorized to be raised by borrowing and the issuance of bonds or notes from \$2,400,000.00 to \$2,325,000.00.

Article 21. To amend the vote adopted at a town meeting on March 29, 1965, under Article 8 of the warrant, appropriating money for laying or relaying water mains, by reducing the amount authorized to be raised by borrowing and the issuance of bonds or notes from \$75,000.00 to \$50,000.00.

Article 22. To amend the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, Article VIII of the by-laws, by changing from Residence District D to Business District A certain land of David B. Colpitts and Roberta P. Colpitts bounded easterly by Colpitts Road, southerly by land of said Colpitts, and westerly and northerly by land of the Town.

Article 23. To authorize acquisition by purchase, eminent domain, or gift, for the purposes of a public playground or recreation center, of the whole or any part of a parcel of land of Guyton J. Nicolai and Lucy M. Nicolai containing 28,553 square feet more or less, located southwesterly of the south end of Beaver Road and adjoining land now of the Town, and shown as Lot 79 on a plan made by Everett M. Brooks Co., dated January 28, 1964, and entitled "Plan of Land in Weston, Mass.", and an easement of travel between said parcel or the land now of the Town and the south end of Beaver Road over a strip of land shown as "20' wide Right of Way" on said plan, and over Beaver Road between its south end and Radcliffe Road; and to appropriate money for such acquisition.

Article 24. To establish a special committee to investigate the problem of refuse disposal, and to appropriate money for the use and purposes of such committee.

Article 25. To establish a special committee to study the Town's building code and to make recommendations as to its amendment or revision, and to appropriate money for the use and purposes of such committee.

And you are to serve this warrant by posting three attested copies thereof, at the Town Hall, at the Kendal Green railroad station, and on the town bulletin board at the junction of South Avenue and Newton Street, seven days at least before the time appointed for said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the selectmen at the time and place of said meeting.

Given under our hands March 17, 1966.

HERMAN KOESTER, JR.

EDWARD M. DICKSON

FLORENCE E. FREEMAN

Selectmen of the Town of Weston

General Government

REPORT OF THE BOARD OF SELECTMEN

We remind you that the **election** of town officers will be held on Saturday, March 26, 1966, at the **Town Hall** for both precinct 1 and precinct 2; the polls will be open from 8:00 A.M. to 6:00 P.M.

The annual business meeting will be held on Monday, March 28, 1966, at 8:00 P.M. in the Weston High School. In view of the several major proposals to be considered at this meeting the Selectmen have arranged to have the High School facilities available on Wednesday, March 30th and Monday, April 4th in the event that additional sessions are required to complete action on the warrant. It is planned to recommend that sessions be held at 8:00 P.M. on these additional dates if needed.

1966 BUDGET AND TAX RATE

The 1966 budget which we shall recommend will provide for estimated total expenditures of \$3,319,254, an increase of \$267,008, or 8.7%, over the 1965 budget. To this must be added an amount estimated at \$754,717 to cover such payments as principal and interest on debt, State and County charges, and appropriations under special articles in the warrant which must be raised by the Town from revenue. For the second time in recent years, we have not received in time for use in this letter the estimated State and County charges and distribution of state shared taxes known as the "Cherry Sheet" estimates. Therefore, our estimate of the combined total amount to be raised must be viewed as less definite than usual and subject to change. Our estimate of the combined total, \$4,073,971 is \$410,650 more than the comparable total for 1965, an increase of 11.2%.

In view of the uncertainties set forth above our estimate of the possible effect on the tax rate which might result from the adoption of these recommendations is less certain. We have, however, tried to err on the side of overestimating the increase and have made no attempt to take into account the effect of an additional tax distribution from the limited sales tax. We have taken into account the availability of surplus for use in reducing the tax rate to the extent of \$50,000. This will exactly offset the 1966 repayment of the one year loan for blanket extensions which was effected in 1965 when surplus funds were at a low level because of delay in receipt of state reimbursements in several categories.

The Board of Assessors has the responsibility for fixing the final tax rate, an estimate of which we are presenting now.

It is estimated that the tax rate for 1966 might be \$32.00, an increase of \$2.00 over the 1965 rate of \$30.00 per thousand dollars of valuation. This estimate does not include any allowance for major capital expenditures, which it is anticipated will be financed from

available funds and borrowings, neither of which should affect the tax rate for 1966.

The following table shows, by principal classifications, the amounts spent in 1965 and the amounts recommended, or in the case of debt service, the amounts required, or in the case of State and County charges the amounts estimated to be required, in 1966.

	1965 Spent	1966 Budget
General Government	126,444	128,127
Protection of Persons and Property	372,409	381,140
Health and Sanitation	20,072	24,343
Highways	219,390	242,450
Public Welfare	47,521	48,366
Libraries	65,085	62,818
Recreation and Parks	30,243	38,733
Water Department	81,707	94,717
Cemeteries	18,948	22,047
Retirement Fund, Insurance and Unclassified	98,250	132,340
Debt Service exclusive of schools	43,538	92,978
 Total Other Than Schools	 1,123,607	 1,268,059
Schools	1,943,009	2,144,173
School Debt Service	368,983	485,539
 Total Schools	 2,311,992	 2,629,712
Separate Articles in the Warrant (est.)	—	2,200
 Total Town Services	 3,435,599	 3,899,971
State Charges	42,926	67,500 (est.)
County Charges	102,612	106,500 (est.)
 Totals	 3,581,137	 4,073,971

Departmental budgets have generally been reviewed by the Selectmen, by subcommittees of the Finance Committee, by the Finance Committee as a whole and by the Finance Committee and Selectmen jointly.

Legislation passed in 1965, which became effective in February 1966, provides for mandatory collective bargaining with municipal employees. This has added some new elements to our deliberations with respect to wages and salaries and fringe benefits for town employees. We have continued to meet as we did last year with spokesmen for several groups of town employees who presented requests for changes in rates of pay, hours and certain fringe benefits. At this time we have not completed these talks, but have provided in the budget estimates our best judgment of the amounts which will be required. Our deliberations on these matters seek to reach decis-

ions which take into account the requests of town employees in the light of comparable rates of pay in other municipalities and private business establishments in this area and the interests of the taxpayers and general public.

The budget recommended provides for increases in pay for town employees. For police patrolmen and fire fighters the increase is approximately 6.1%. For hourly rated employees of Highway, Water and Park and Cemetery departments a reduction of normal work week from 42½ hours to 40 is planned; at the same weekly gross pay this would increase hourly rates by approximately 6.2%. Some adjustments in rates for specific job classifications have also been included to bring our rates of pay into a better competitive relationship for a small number of hourly rated employees. For other employees the budget includes increases generally approximating 4.5%.

A review of fringe benefits available to employees of the Town has brought the Selectmen and Finance Committee to the conclusion that Weston now provides benefits generally equal to those offered by comparable and surrounding municipalities. Therefore, no additional or increased fringe benefits are recommended at this time.

In addition to the wage and salary changes the following are some of the important increases in the 1966 budget.

Protection of Persons and Property

Provision has been included (\$4,700) for the employment of one additional permanent patrolman in the Police Department after April 1, 1966. Provision for employment of part-time extra help has also been increased. Expense and Equipment appropriations have been increased to provide for increased police supplies, increased patrol activity, training of new men and crime detection and prevention equipment. Provision is made for replacement of the Chief's car which is five years old, as well as for normal patrol car replacements.

Fire Department Salaries includes \$4500 for three additional permanent fire fighters to be employed as of October 1, 1966, in contemplation of construction of a subsidiary fire station on South Avenue so that adequate trained personnel may be available to staff the new facility when it is ready. In the meantime increased personnel at the central fire station will represent an improvement of fire protection for the entire town. Provision has been included in the Equipment appropriation for radio alerting units for approximately half of the permanent and call fire fighters.

Health and Sanitation

An increase of \$1,600 in the appropriation for Mosquito Control has been requested by the East Middlesex Project Commissioners as the result of increased wages and salaries deemed necessary by the Commissioners.

Highways and Bridges

The Selectmen have increased the appropriation for Construction and Reconstruction of Public Ways to \$25,000 as part of a program to accumulate over the next years some funds with which to undertake urgently needed improvements of existing roads and construction of new ways.

Recreation and Parks

Provision has been made for improvements at the Memorial Pool estimated to cost \$6,500. This follows the recommendations submitted by consultants employed by the Recreation Commission during 1965.

Retirement Fund, Insurance and Unclassified

The bulk of the increase in this category stems from increased insurance premiums required in connection with new buildings now under construction or anticipated during 1966, and for the Town's share of premiums on group insurance for town employees.

Water Department

Provision has been made for the replacement of a 1961 pickup truck by a small truck with utility body. Estimated cost of the new unit is \$2,250. Provision for the assessment of charges by the Metropolitan Water District (one-tenth of the total entrance fee of approximately \$79,000) has been included under State Charges.

Schools

The school operating budget has increased by \$155,249 over 1965. Of this amount Salaries account for \$121,226, Operating Expenses for \$32,281, and all other categories for \$1,742 of the total.

Debt and Interest

Debt and interest charges for 1966 have increased by \$165,996 over 1965. Of this, \$50,000 will be offset by an appropriation of surplus to reduce the tax rate if our recommendation is accepted by the Town. The remaining increase is accounted for by borrowing effected during 1965 for the addition to the Senior High School and for the addition to the Town Highway Department Garage.

BALLOT QUESTIONS

One question will appear on the ballot for town election, March 26, 1966. It will ask, "Shall the town distribute to its insured employees, after deducting the town's total administrative cost, the balance of any group insurance dividend which shall be based upon the employees' proportionate share of the total premiums paid for all insurance coverages?" The Selectmen believe that an affirmative

vote on this question will permit a more equitable distribution of group insurance dividends than has been possible; heretofore, all dividends have inured to the benefit of the Town even though 50% of the premium cost was paid by the employees. A new statute adopted in 1965 makes consideration of this question possible.

TOWN PROBLEMS AND PROPOSED SOLUTIONS

During 1965 the Town of Weston, like the adolescent it is, added more adults to its population, more hundreds of feet of road to its highway system, more children and teachers to its schools, more pipe to its water system — the Town of Weston grew in its needs and responsibilities.

We know that the geographical borders of the Town remain what they have been historically, for the Board of Selectmen physically checked the stone bounds during the month of December; but within these borders the population increased by several hundred. Since the human element requires houses in which to live, roads upon which to reach those houses, water to drink and schools in which to educate its children, each Town service was required to grow a little bit during the year's period. The annual increase is almost imperceptible from month to month, but taken over a five or ten year period, the requirements for, and use of, Town services and facilities necessitate periodic expansion of the bases from which Town government may discharge its responsibilities.

*Estimated as of January 1.

† Revision of Assessments effective January 1, 1964.

(1) Including debt service.

This report will be concerned largely with the proposals of the Board of Selectmen for meeting the responsibilities to its residents.

1965 was the year in which a frontal attack was made on working out solutions to a variety of Town problems resulting from growing pains which have been developing over a period of years. It was fortunate that the Weston Master Plan, prepared for the Planning Board by Charles E. Downe, became available during the summer of 1965; thus, the Town was given the advantage of an outside expert's view as well as the "worm's eye" view already in the process of development by its officials and boards. These views coincided to a surprising degree and reinforced one another to the conclusion that during 1966-1967 definite steps need to be taken in a number of areas to bring Town services up to date.

Master Plan projections indicate that the Town has reached a $\frac{2}{3}$ point in its growth pattern—provided the character and zoning policies of the Town undergo no drastic changes. At the same time, it is a fact that the Town is making do with departmental housing facilities which were built for a much smaller municipality.

It is in the area of departmental housing that work must be commenced in 1966-1967.

Sewerage

The center of Weston is the location not only of the business district but most Town facilities and the elementary schools. The City of Cambridge—because of its adjacent water supply—and the State Board of Health have long complained about the lack of sophisticated waste disposal in the center—but insisted upon no drastic remedies. During 1964 and 1965, however, the pressure for change began to mount. Warnings were delivered from the State Board of Health that no new school construction could take place in the central area unless a proper sewerage disposal system were installed. Approval for the projected new Fire-Police construction was virtually refused on the same basis. The local Board of Health was forced to condemn private sewage disposal facilities in one section.

It is a proper conclusion to the above that the Town either must supply a proper sewage disposal system or stunt its services to its residents.

At the annual town meeting in 1965, therefore, the Moderator was authorized to appoint a committee to study the problem and make recommendations. This report is now available and recommends an intra-Weston system with leaching beds to be located on a parcel of land in the Jericho Town Forest. The cost to the Town is estimated at \$264,000, the Federal government adding to this an amount of \$96,000 to make up the total cost of the system.

The Board of Selectmen unanimously urges the adoption of the Committee's recommendations; indeed, the Selectmen point out that none of the housing problems below discussed can be solved without the construction of a proper sewage disposal system.

Fire-Police Facilities

In light of the many problems surrounding the development of a new police-fire facility adjacent to the present fire station which were clearly presented a year ago, the Town voted at the 1965 annual town meeting to establish a committee to restudy the physical needs of the fire and police departments and to make proposals for meeting these needs. At the same time the Selectmen felt it wise to postpone the request for funds to build a south side station until the recommendations of this new study committee had been made.

The Committee report has been presented to the Town and it encompasses a recommendation for the building of an entirely new police and fire facility at the southwest corner of Wellesley Street and Route 20. The Town will be asked at the annual meeting to vote for the establishment of a committee to develop plans and specifications for the building of a new facility at the recommended site. It is felt that the need for a south side fire station stands on its own merits and that the merit of that need at this time should be judged by the voters. Therefore, the Selectmen will request funds for the construction of a fire station on the land already owned by the Town at South Avenue opposite Ash Street.

In light of the year's delay caused by this restudy of police and fire facilities, a metal garage was constructed behind the present fire station to house two pieces of apparatus on a temporary basis. After its use has been served in this present function, it is felt that the building can be satisfactorily used for protective housing of other town vehicles, probably at the Highway Department garaging area. The five bay addition to the Town garage voted in 1964 is well on its way to completion and will soon be in use to house Highway Department equipment.

School Plant

The requirement of additional school buildings for the increasing number of children in the town, and to provide facilities for giving them the scope of study and training desired by the people continues to be the major capital outlay concern of Weston. In the course of the past year an addition consisting of six class rooms and a multi-purpose room was completed at the Woodland School, and the Town accepted the plans of the High School Addition Committee and appropriated \$1,303,000 for the construction of the recommended major addition. At this time that construction is well under way on a schedule calling for occupancy in September of 1967. In order to maintain a proper perspective of school building requirements for the future, the Town at the last annual town meeting authorized the moderator to appoint a committee to study all additional needs of the school system and to establish a reasonable and comprehensive program for the future. This committee has worked throughout the year and has issued its report to the Town. This report outlines the steps which are recommended over the coming

years for the completion of our school plant layout. The first recommendation that a new junior high school be built adjacent to the present high school was made in the view that the requirement for building of this facility appears to be most pressing at this time and that the location of a new junior high school adjacent to the High School does present a practical educational concept and carries with it certain economies by the use of the auditorium and some physical education facilities by both schools. At the forthcoming annual town meeting the committee will ask the town to provide funds for the purchase of the desired land immediately adjacent to the High School site to accommodate this plant expansion and will also ask for the appointment of a building committee with sufficient funds to carry out the preliminary architectural work. School growth estimates indicate that this school must be ready for occupancy in the fall of 1968.

Public Library

In acting upon the report of the special moderator-appointed study committee at the 1965 annual town meeting, the transfer of Lamson Park for use as a library site was voted, as was the establishment of a building committee to develop plans and specifications for a new library building on that site.

Throughout the ensuing year the committee thus appointed has carried on its work and is now preparing to present its plans and recommendations to the Town requesting an appropriation to cover construction of the new building.

Since the time that the original action was taken there has been continuing opposition to the project to the extent that the opponents, by presenting to the Selectmen a properly executed petition signed by more than 200 voters, have made it mandatory that a special town meeting be called for what is in effect reconsideration of the library question. This meeting will be held on March 14th, and it is hoped that either by reaffirmation of the original town decision, or by action to provide for the development of a sound solution to the recognized need for expanded library space, the question may be resolved to the best interest of the community.

Economic Considerations

The Board of Selectmen is well aware that the above recommendations constitute an ambitious and expensive capital building program for the Town of Weston. It was for that reason that the Selectmen were among those urging a more intensive study of what is known as "Capital Budgeting" for the Town. This study was undertaken by three members from the Finance Committee, one member from the Board of Selectmen, and one member from the Planning Board; the study was commenced during the summer of 1965 and is now complete.

It was the original hope of the study group that priorities could be assigned to the various projects here discussed to the end that

no unusual impact would be felt by the taxpayer at any one time. The hope has not proved to be the reality. From the standard of need all the above projects are needed, and, in addition, the Library Trustees and the School Committee have valid reason for insisting upon immediate action for a new library building and a new junior high school.

The Capital Budget Report has been distributed to the Town and is self-explanatory. Every resident is urged to read this document with care.

LOOKING TO THE FUTURE

There is no truer philosophy than that expressed in the words — “Today is the tomorrow you worried about yesterday”. While no time schedule or monetary amounts can be attached to the below mentioned items, these do constitute growing problems, pointed out by the Master Plan and connected studies, which the Town must face in the near future.

Highways

For many years the major highway construction in town has been on the Chapter 90 roads for which the town puts up 25% of the necessary funds, the County 25%, and the State 50%. The amount allocated by the State Department of Public Works is wholly unrealistic in relation to the needs and to the present costs of construction. As a result the time necessary to accumulate the funds and to complete the work has taken a period of years and the needed improvements have been delayed. The only major work started during the last five years has been that on North Avenue (Route No. 117) for which it took six years to accumulate the funds.

Since at the present time the only funds available for highway construction are those provided by the State, County and Town, the Selectmen have made an urgent appeal to the Department of Public Works to increase their allocation so that the long overdue improvement of Wellesley Street could be completed between Regis College and South Avenue.

In addition, the Selectmen will recommend to the town meeting that the amount allocated for highway improvement be increased from \$5,000 to \$25,000. This will enable the town to undertake and complete non-Chapter 90 work that has been in the planning stage for several years, namely Highland Street south of Chestnut Street.

As the new subdivisions and the increase in traffic through the town continue to place an added burden on the through roads, to better the safety alone, more work on highway improvement will have to be done in the years ahead than has been done in the immediate past.

Traffic Controls

Along with highway improvement it is apparent that more controls are necessary for better traffic regulation.

The Selectmen have asked the State Department of Public Works to install traffic lights at the intersection of Highland Street and the Boston Post Road By-pass (Route 20) and at Wellesley Street and the By-pass.

It appears that the coordinated traffic light systems for the intersections of Park Road and Newton Street with South Avenue will be installed this year. Together with a widening of South Avenue on the south side between the intersections these should result in an adequate control of the new traffic generated by the Toll Road. The cost of this work, estimated at \$55,000, will be shared by the Massachusetts Turnpike Authority and the State Department of Public Works.

Other locations to be studied for possible traffic lights are the intersections of Lexington Street and Church Street with North Avenue. With the widening of North Avenue provision has been made for these signals by installing underground conduits should they prove necessary.

The speed zoning survey of the major streets started by the Department of Public Works and the Registry of Motor Vehicles five years ago has been completed and speed zone signs will be installed this year.

A study is being made to determine whether it is possible to obtain approval from the Department of Public Works of a regulation to prohibit heavy through trucks operating on residential streets by requiring them to use state highways and numbered routes through Weston.

Joint Use of Equipment

In place of a formal public works department which seems to the Selectmen to be too inflexible we have, in cooperation with the Water Commissioners and the Park and Cemetery Commission, been working towards a pooling of the equipment and manpower of these departments with those of the Highway department. We hope these efforts will be completed during 1966.

By allocating all the equipment and manpower where it is needed at the right time and place a more efficient operation will result and the dollar savings will be considerable.

Electric Utility Wires

During 1965 the Selectmen continued their concern with the placing of certain utility wires underground. This was accentuated by the massive black-out which occurred in the fall and less extensive failures of power which have occurred since, particularly that resulting from the heavy snow storm of January 23rd of this year.

As the Boston Edison Company extends their improvements in the distribution system in Weston, efforts will be continued by the Selectmen to have these high voltage lines placed underground. The Selectmen will also support legislation pending before the General Court which has this same intent on a state-wide basis.

The Dump

One of the most serious unsolved problems before the Town has to do with the satisfactory disposal of solid refuse in a manner which will eliminate the practical need for open burning in our present dump facilities, or perhaps eliminate the use of those facilities entirely. We are conscious of the constant pressure from the State Department of Public Health towards correction of this problem; to control as much as possible air pollution and fire hazard at the dump, the open trench system started a year ago is still being used to give some element of control.

Continuing study of the situation would indicate that the use of a proper incinerator system, either on a local or regional basis, probably offers the only practical solution. The high cost of construction and maintenance of such a system make it appear that it might well become the common province of two or more neighboring communities, and since it is a fact that most of the communities in this area are faced with a similar disposal problem, we believe that this does offer opportunities worthy of serious investigation. Study will continue at an increasing pace to determine the feasibility of such a plan with other communities, and to work out the question of location, refuse transportation, and other accompanying problems. Financial and technical assistance from various government agencies is indicated to assist in such study, and every area will be explored in the hope that a proper permanent solution to this problem may be found in the near future. A study of the refuse disposal problem in the metropolitan area of Boston is being conducted by the Metropolitan Area Planning Council financed by a Federal Grant. (Weston is a participating member of this Council.) The results of this study are expected to be available during 1966 and should be of substantial assistance in appraisal of our problem.

Town Hall Office Space

The need for expanded office space has been referred to by the Selectmen each year for a number of years. We are no closer to a specific plan for this than we have been, but recognize that steps must be taken within the near future to take advantage of any space which may become available within the building by reallocation of uses and removal of the Police Department to new quarters.

Multiple Housing

The Master Plan, while making no recommendation, comments on several locations in Town suitable for the construction of multiple type dwellings. These might take the form of "cluster" single family residences, garden type apartments, and/or high rise apartments.

The Selectmen have already appointed a Committee to study multiple type housing for the elderly of Weston and the problem of housing for Town employees. This study does not anticipate an investigation of general multiple housing because it has been felt that

the residents of Weston wish the Town to remain primarily a single family residential community.

The study is progressing slowly because of the difficulties of attempting to meld the needs of the elderly and town employees with the established character of Weston. A questionnaire for those involved is, however, in the process of preparation by the Committee, which questionnaire will go far to ascertain which of several approaches developed by the Committee will meet the needs and desires.

At this time, it does not appear that Town expenditures are involved in the thinking of the Committee. The final recommendations of the Committee are not expected until the winter of 1966-1967.

Business Center Zoning

The Board of Selectmen and the Planning Board have spent much time and discussion during the past six months in attempting to work out with the interested owners the details of a coherent plan for the business center, as suggested by the Master Plan Studies of Charles E. Downe. The discussions have focused around the location of a road which would supply circular traffic flow around the commercial area, the size and location of a central parking area, and the acquisition by the Town of a "green" area between the business district and Boston Post Road By-Pass (Route 20).

Because of the conflicting interests involved, it has been difficult to obtain the cooperation of all affected parties. The Board of Selectmen and the Planning Board are now considering what steps might be taken by the Town to bring about a measure of assurance that development will follow the orderly pattern which all parties concur is desirable for the long run best interests of the Town. It may be necessary that some municipal expenditure take place to bring about the desired result. However, no conclusions have as yet been reached.

OTHER MATTERS

During 1965 the General Court adopted a new law providing that "no person shall remove, fill or dredge any bank, flat, marsh, meadow or swamp bordering on any inland waters without filing written notice of his intention . . . with the board of selectmen . . . and with the state departments of public works and natural resources." Several instances of such proposed work came to the attention of the Board of Selectmen after this act became effective. Compliance with the more detailed provisions of the statute and its standards is extremely important from the point of view of conservation of water supply and prevention of flood problems. These detailed provisions are complex and can not be adequately discussed in this report. We wish to refer you to the Report of the Conservation Commission which comments on the law and to invite any resident who plans work which may come within the provisions of the law to consult the office of selectmen concerning the procedures to be followed.

*Since 1953 appropriations for the various categories of public assistance have been lumped into a single appropriation known as Aid Expense. The following breakdown is given to show the estimated expenditures for each category in 1966:

General Relief	\$ 3,000.00
Disability Assistance	10,000.00
Old Age Assistance	6,999.00
Aid to Families with Dependent Children	2,998.00
Medical Assistance for the Aged	17,999.00

Total	\$40,996.00

ote 1. Accounts indicated by † are continuing appropriations, the balance of which shall be carried forward to the next fiscal year. In cases where a balance is carried forward without this designation, the appropriation has been encumbered for the payment of liabilities incurred in the preceding year.

ote 2. The word "Receipts" as used above indicates sources of funds for expenditures which are available and need not be raised by taxation, such as: Surplus and Dog Tax Refund.

The word "Transfers" as used above indicates amounts made available by the Finance Committee from the Reserve Fund for unforeseen and extraordinary expenditures.

REPORT OF THE FINANCE COMMITTEE

Capital Spending

The year 1965 will undoubtedly go down in Weston's history as one of the most active as far as the number of committees that were busy studying major building programs for the Town. Their efforts were devoted to projects that encompass nearly all activities that fall under the responsibility of the Town's administration. The details concerning these various projects have been adequately pointed out by the special Capital Budget Coordinating Committee, the annual report of the Board of Selectmen and by the special reports which have been submitted by each of the building and study committees themselves.

Without regard to the necessity or desirability of any of these particular projects, they will require additional revenues to take care of the annual debt service. While the cost of servicing the Town's debt fluctuates rather widely depending on the addition of new bond issues and the maturity of old issues, it does require sizable amounts of money. For the year 1966 the budget requests for debt service will be \$590,000, made up of \$125,000 for interest and \$465,000 for principal. This contrasts with a total figure for the year 1965 of \$412,000.

It has been estimated that if all of the current projects which will involve capital spending are approved the amount of outstanding debt of the Town of Weston will approximately double. Outstanding debt at year end 1965 was \$3,794,000 and the projections under the above assumptions indicate that an additional \$3,725,000 might be required. This does not necessarily mean that the impact on taxes will double as a result because a great deal depends on the number of years over which an anticipated bond issue is retired. However, it would seem to be a reasonably safe projection to say that the Town's debt service over the next two or three years could approximate \$750,000 to \$1,000,000 which would be in the vicinity of 15% to 20% of our total revenue requirements. Obviously, as the Town grows its ability to carry outstanding debt increases as does its appetite for additional and increased services. However, it is this committee's belief that the ability to carry an additional debt burden is not necessarily justification by itself for additional capital expenditures.

Operating Expenses

Capital spending programs and the projects which they finance all too often seem to get all the glamour and attention during the course of the year, while the routine but ever increasing operating expenses proceed along on an ever upward spiral. In this connection it seems appropriate to point out that the largest single area of the Town expenses are made for school purposes. In 1965 school

operating expenses amounted to approximately 54% of the total expenditures; in addition debt service for school purposes amounted to over 10% of the total expenditures.

The largest single area of the operating budget for the school system is in the category of salaries. In the school budget for the year 1966 80% or \$1,725,730 has been requested for salaries out of the total budget of \$2,144,173. To a very major extent the amount of this salary request cannot be controlled as a practical matter by the School Committee. This statement obviously presumes that certain educational standards will be met and sustained. It also takes into account uncontrollable items such as an increasing school population. However, the School Committee has estimated that of the \$123,000 increased salaries for 1966 versus 1965, approximately \$98,000 came from salary schedule and step rate increases while approximately only \$25,000 was attributable to enrollment growth which increased both teaching and administrative staff. In the area of operating costs as opposed to debt service costs these salary rate increases are responsible for the largest percentage increase in the operating budget. The one big question in the minds of the Finance Committee, and in all likelihood the School Committee, is where and when the adjustment in teacher's salaries will begin to level off. From a point of view of Town finances, it is not difficult to see why this looms as a very important question when it is considered that over 40% of our tax revenue is now required to support school salaries.

While teaching salaries stand out in the budget just from their sheer size, it should also be pointed out that salaries in all other areas of the Town's operation will be responsible for a large portion of the total increase in operating costs. We pointed out in our report last year that "people costs" are now and undoubtedly will continue to be the major Town expense item. We are now faced with a new collective bargaining law that applies to town employees, and appropriate Town Officers have met with and negotiated salaries and other fringe benefits with several groups of employees for the first time this year. While this does not necessarily mean that salary items should or will be escalated to unreasonable levels, it is an indication that the pressure may be greater in this area than in the past.

Looking Ahead

We continued this year to attempt projecting the income and expense figures for the Town over the next five-year period. These results were distributed in a general mailing to the Town and were not intended to be an attempt to influence spending programs per se. However, the results of this study indicated that the tax rate by 1970 would be \$39.45, an increase over the \$30.00 which applied in 1965. While this increase of \$9.45 may not look large in comparison with years prior to 1964, it must be remembered that we are now at

or close to full valuation for assessment purposes here in Weston. This increase if it should materialize (and we have tried to be as conservative and logical as possible) will amount to 31.5%. One only needs to take his tax bill for the year 1965 and increase it by this percentage to get some idea of what the next five years may mean on individual properties. The Finance Committee is obviously very much concerned with this increase and is not content to rationalize the situation by looking at other towns that may be in the same or even a worse situation. We obviously will become even more concerned if it turns out that as time progresses our estimates prove to be too low.

The Finance Committee serves the taxpayers primarily in an advisory role. We do not have the authority to alter Town spending except in a very limited capacity. It, therefore, is incumbent upon the taxpayers and voters to acquaint themselves, with our help, with the financial problems the Town faces. We will continue to devote our best efforts to keep you informed of our work as carefully and objectively as possible. As specific spending proposals are made at town meetings this committee will make its position known to the voters.

REPORT OF AUDIT OF MUNICIPAL ACCOUNTS

January 26, 1966

Board of Selectmen
Weston, Massachusetts

Gentlemen:

This is to certify that the books and accounts of the town of Weston were audited by the Bureau of Accounts, Department of Corporations and Taxation, as of July 31, 1965, at which time they were found to be correct with all funds properly accounted for.

A detailed report of the audit will be forwarded as soon as possible.

Very truly yours,

/s/ WILLIAM SCHWARTZ
Assistant Chief of Bureau

When the detailed report referred to above is received it will be available for inspection at the office of the town clerk by any interested person.

REPORT OF THE BOARD OF ASSESSORS

Town Appropriations:

REPORT OF THE COMMISSIONERS OF TRUST FUNDS

Additions to the Trust Funds of the Town in 1965 were:

Consolidated Trust Funds

Perpetual Care Burial Grounds	\$7,525.00
Weston War Memorial Educational Fund	356.00
B. Loring Young Fund	300.00
Profit on sale—	
First National Bank shares	22,717.37

Total Additions	\$30,898.37
-----------------	-------------

World War Trust Fund:

Cambridge Savings Bank Div.	303.49
-----------------------------	--------

\$31,201.86

Total Trust Funds at December 31, 1965 were \$298,075.41 as compared to \$266,873.55 at the end of 1964. This increase was largely due to the profit realized on the sale of shares of the First National Bank of Boston.

Income collected in 1965 was \$12,008.30.

Year-end values of the Funds follow:

Consolidated Funds			Book Value	Market Value
Savings banks deposits			\$136,341.82	\$136,341.82
\$10,000 U.S.A. Treasury	4	10-1-69	10,000.00	9,718.70
10,000 U.S.A. Treasury	4	2-15-80	9,900.00	9,425.00
10,000 U.S.A. Treasury	3½	2-15-90	10,031.25	8,537.50
10,000 U.S.A. Treasury	4¼	8-15-92	10,046.88	9,637.50
Certificate of Deposit—				
State Street Bank & Tr. Co.	4½	4-11-66	29,880.42	29,880.42
10,000 South Cal. Edison	3½	4-15-81	9,910.60	8,900.00
10,000 Cent. Maine Power	4⅞	5-1-87	9,800.00	10,000.00
10,000 Ohio Edison	4¼	3-1-88	10,130.64	9,600.00
10,000 Tampa Elec. Co.	4¼	7-1-88	10,197.34	9,600.00
10,000 Pacific Tel & Tel.	4⅜	8-15-88	10,178.25	9,800.00
10,000 American Tel & Tel	3⅞	7-1-90	10,200.00	8,962.50
10,000 N. States Power	5	12-1-90	10,000.00	9,900.00
10,000 S. Bell Tel & Tel	4⅝	12-1-93	10,104.44	9,850.00
5,000 N.Y. Central R.R.	4	2-1-98	4,218.75	3,725.00
World War Trust Fund				
Savings Bank deposit			7,135.02	7,135.02
Total Trust Funds			\$298,075.41	\$291,013.46

Your Trust Fund Commissioners urge residents of Weston to consider gifts or bequests, large or small, for Town purposes.

REPORT OF THE BOARD OF REGISTRARS OF VOTERS

During 1965 one hundred and twenty-four (124) persons were registered and added to the register of voters in Weston. Three hundred and seventy-three (373) persons were dropped from the register. On December 31, 1965 there were 4842 registered voters.

REPORT OF THE PLANNING BOARD

The Weston Planning Board held forty regular meetings during 1965. Due to the developing Master Plan studies, the Board spent considerable time on its townwide planning functions. The Master Plan Report itself was completed and distributed in June. Copies are currently available at the Town Library and for purchase at the office of the Town Clerk. This study for the first time provides a compilation of all previous Town studies as well as recommendations for action and further study in most major areas of Town government responsibility. The Planning Board is developing a list of these recommendations to be either implemented or studied further as the responsible board may determine. The Board feels that with the investment of both time and money in this Report every effort should be made to maintain it as a working document and up to date reference for the Town.

The master plan recommendations for capital budgeting resulted in joint meetings of the Selectmen, Finance Committee and Planning Board from which a committee was developed and its area of responsibility defined. In past years the leadership for capital budgeting has varied in its origin, and it was felt that a joint committee of the boards most concerned would best assure a continuing responsibility and effective liaison among them.

Another area of considerable activity by the Planning Board was planning for the Town Center. Mr. Charles E. Downe, who prepared the Master Plan studies, was engaged to prepare a special study on the Town Center. The study was completed and distributed in September. Both during the studies and since their completion numerous meetings and hearings have been held with the Board of Selectmen and those merchants and landowners directly concerned. The Board is hopeful that these studies and meetings will result in an attractive, well planned Town Center with proper vehicular circulation, sufficient parking, and ample area to provide for the ultimate convenience shopping needs of the Town.

During the past year the Board maintained official liaison with all elected and appointed Town committees, and as the reports of Special Town Committees were developed the Board was able to discuss with them in joint meeting the various planning considerations involved.

Five new subdivisions were approved during the year involving 7,000 feet of new roads and 77 lots. This is substantially fewer lots than the 149 approved last year but it is not necessarily an indication of the speed of the development of the Town. There is always a large inventory of potential house lots in approved subdivisions as well as in undivided lots not subject to approval under the Subdivision Control Law. The number of building permits issued as listed in the Building Inspector's report is a better indication of the speed of the

development of the Town. One subdivision approved by the Board in 1965 involved the largest remaining privately owned contiguous parcel of land. This is the so-called Dean Dairy property south of the Boston Post Road adjacent to Wayland. This area comprises 92 acres and 52 potential house lots.

In the administration of the Zoning By-law the year was also an active one. Several inquiries were received concerning the re-zoning of certain areas for apartment use. Forty-one plans of land in Weston were considered and endorsed "approval under the Subdivision Control Law not required."

Written and personal appearances were made on several matters before the Board of Appeals for variance. The Planning Board feels very strongly that the Town's zoning by-law should not be relaxed by the use of variances.

Four zoning matters came before the Town at the March Town Meeting. The Planning Board sponsored a re-zoning of the so-called "Blake-Fitzgerald" property south of the Massachusetts Turnpike at its intersection with Route 128. The Board felt that a business use was more appropriate than a residential one and with Town Counsel drafted a proposal with many controls. This article was defeated.

The Town voted in favor of articles calling for zoning of a previously unzoned 0.9 acres of land owned by the Massachusetts Broken Stone Company, establishment of one parking space for each 175 square feet of new building in business districts, and adoption of a technical amendment concerning the time in which an appeal may be made from a decision by the Board of Appeals.

The Planning Board continues to take an active part in regional matters both through representation on the Metropolitan Area Planning Council and discussions with neighboring towns. Of current regional interest are the various proposals for bypassing Route 20 and/or extending Route 290. Meetings are continuing with neighboring towns on these proposals, particularly with Wayland and Sudbury.

The Planning Board is grateful to those citizens of the Town who attended its hearings or otherwise made their views known. Without such guidance from the townspeople it is impossible for the Board to function effectively. The Board is also grateful to the Town Engineer without whose continuing help and advice its efficiency would greatly suffer.

REPORT OF THE TOWN ENGINEER

The activities of the Engineering Department for the year 1965 with the various departments and committees of the Town are summarized as follows:

Planning Board. Attended meetings of the Board. Five subdivision plans which came before the Board were reviewed and suggestions made for changes; the land involved was viewed with the Board and again with the Board of Health representative. The total number of lots was 77 and there were 1.33 miles of roads in these subdivisions. Much time was spent with the Board and Mr. Charles E. Downe on the Master Plan studies.

Water Commissioners. Attended meetings of the Board. Prepared plans, contracts and specifications for water main extensions in Round Hill Road, Stony Brook Road, Hobbs Brook Road, Forest Ridge Road, Whitney Tavern Road, Overlook Drive, Indian Hill Road, Stonecroft Circle, Colpitts Road, Scotch Pine Road, Falmouth Road, River Road, and Country Drive, a total of 2.17 miles. Worked with consulting engineers and contractor on completion of pumping station and connection to M.D.C. aqueduct.

Selectmen. Prepared plans for acceptance of Fairview Road, Surrey Lane, Country Drive, Lawrence Road, Black Oak Road, Nobscot Road and Overlook Drive as public ways. Attended meetings with the Massachusetts Department of Public Works, Department of Public Health, and the Middlesex County Commissioners. Perambulated the town lines of Lincoln, Natick, Watham and Wayland with the Board.

Highway Department. Line and grades were set for 850 feet of drain pipe in Apple Crest Road. Conferred with Superintendent of Streets on other smaller drainage problems. Street lines were staked in three different locations for property owners.

Assessors. Atlas plates were brought up to date with respect to property lines and owners' names.

School Department and Affiliated Committees. Staked and set grades for playground at Woodland School. Met with various committees to discuss proposed school sites and their problems.

Police and Fire Departments Study Committee. Made plan of land at proposed location and prepared maps to accompany the Committee's report.

Conservation Commission. Made survey and plans for acquisition of two parcels of land, one of 7.87 acres and the other of 18.6 acres.

Miscellaneous. The official map and the zoning map were brought up to date.

Small jobs were done for the Park and Cemetery Commissioners, Board of Health, Recreation Commission, and Library Building Committee.

Recorded information was given to utility companies and private surveyors.

Realtors, property owners and prospective property owners were given information on property, zoning laws, and Planning Board Rules and Regulations.

REPORT OF THE CONSERVATION COMMISSION

The year 1965 was a significant one for the cause of Conservation. By Acts of the Legislature, two great strides were taken. The first was the Hatch Act which was approved March 29, and the second was the Coastal Wetlands Bill passed on November 23. Vital as the protection of the Wetlands is to the state, the Hatch Act immediately affects every town in the Commonwealth.

Summarized briefly, the Act requires any person, before removing, filling, or dredging any land bordering on inland waters to file with the Board of Selectmen in the town and with the Department of Public Works and Department of Natural Resources a written notice of his intention to do so. Within ten days of receiving this notice, the selectmen hold a public hearing following which they may recommend protective measures. The Department of Natural Resources may impose conditions to protect the public or private water supply or to insure proper flood control.

Anyone wishing more information on this Act should refer any questions to this Commission.

With the impetus supplied by the Hatch Act, a new approach to the conservation of brooks, ponds, and their adjacent marshes if any, had been provided, which might, the Commission felt, have valuable application to a town like Weston. With the encouragement of the Selectmen and the Planning Board, the Commission set up a subcommittee to study this situation. Messrs. William C. Atkinson, John A. Fiske and Charles L. Smith were invited to be members and each accepted enthusiastically. They have turned in much useful work.

On the immediate local front, the purchase of 7.87 acres of woodlands from Mr. and Mrs. Paul D. Bartlett off Concord Road went through at the beginning of the year.

There are many new developments regarding state and federal financial aid for conservation purposes coming up which the Commission will have to study carefully in the coming year.

Protection of Persons and Property

REPORT OF THE POLICE DEPARTMENT

The volume of matters requiring police attention continues to increase as the town grows. In 1965 the Weston Police Department processed a record number of calls for police services, and patrols were expanded to cover newly-developed areas. At the same time, established programs of traffic law enforcement, safety and personnel training were maintained. The four department vehicles travelled a total of 198,546 miles carrying out patrols and related police functions.

Automobile accidents increased, with 270 reported during the year. This figure represents every accident coming to the attention of the police, even those of a very minor nature. In July, after twenty months without a death on our highways, the first of three occurred when a motorist struck the rear of a slow-moving piece of construction equipment on Route 128. In September, near the Waltham line, and in December, at the intersection of Highland Street, pedestrians were fatally injured while crossing Route 20.

The incidence of housebreaks continued high and, in several cases, involved considerable malicious destruction of furnishings and personal belongings. Patrols have been revised and strengthened to permit additional coverage and increased vacant house checks in the affected areas. Funds are requested in the salary budget to permit continuation of this additional coverage in 1966. Residents once again are urged to notify the police when leaving homes unoccupied for an extended period of time and to inform neighbors of the fact with the request that any unusual activity be reported. Silver, jewelry, and other valuables, including fire arms, should be stored in a bank vault or other secure location. At the owners' request firearms will be stored in the Police Department vault.

A Civil Service examination was held in July as a necessary prerequisite to the appointment of a third sergeant. By the close of the year the Commission still had not established an eligibility list. However, it is anticipated that the list will be announced and an appointment made in the early part of 1966. The complement of the Department will then consist of the Chief, three sergeants and eleven patrolmen. The appointment of one additional patrolman should be authorized to replace the officer receiving the promotion.

The training and education program was continued at all levels. Early in the year a course of instruction in radiological monitoring was conducted at the police station by an instructor from the Massachusetts Civil Defense Agency. Regular, reserve, and auxiliary officers are now qualified in the operation of monitoring equipment supplied by Weston Civil Defense for use in event of incidents involving radioactive materials. All members received training in riot

and crowd control tactics as part of a mutual aid program initiated by several local police departments. The Chief attended Law Enforcement classes at Northeastern University for a total of twenty semester hours. The sergeants and several patrolmen attended various seminars and courses of instruction offered by the Federal Bureau of Investigation, the Commonwealth of Massachusetts and Northeastern University. A roll-call training program will be introduced in 1966, utilizing printed material published semi-monthly by the International Association of Chiefs of Police. Each issue, or "Training Key", will present the best known information on a single topic of importance to law enforcement officers. Both the Weston Police Department and the community as a whole will benefit in equal measure from this new training service.

The need for suitable quarters for the Police Department has been amply documented in prior reports and little can be added at this time, except to urge that every possible effort be made to bring about the construction of this much-needed facility.

REPORT OF THE FIRE DEPARTMENT

The continuing drought has given the department another busy year protecting the woodlands. The lack of normal rainfall has made even small areas difficult to extinguish, and many sources of water for firefighting away from the hydrant system have gone dry. There were a number of serious building fires this year, but fortunately there was no loss of life.

The problem of obtaining call firefighters has not changed. It is still impossible to find many men willing, available, and qualified

to do this work, especially during the daytime. The request for men last year was turned down pending the construction of the southside station. The construction date of this station is still in doubt, so I am again requesting three additional firefighters to add a man to each shift this year regardless of what action is taken in regard to the stations. This added manpower could be transferred to the southside station when it is built. In the meantime, these men will help the manpower shortage in the department.

I am in complete accord with the report of the Fire and Police Department Study Committee for the replacement of the headquarters station. Their reasons were very briefly stated. The site chosen for the new station is acceptable, with adequate traffic lights and good egress from the station area. Opposition to a site should not preclude the need for the station.

The growth of the town continues at a well regulated pace, but with the south side of the town reaching a building density and valuation greater than the north side. A station on the south side of town has been recommended by the Chief and other authorities for many years. In 1964-65 it had progressed to the purchase of the land, extension of the fire alarm cable to the site, and preliminary building plans. The project was suspended pending the report of the Fire and Police Department Study Committee. I feel it should have been carried through to completion.

It is unfortunate that the need for both stations has coincided. The need for both stations is a very great one and it would be indeed difficult to assign priorities. It is my recommendation that both projects be carried out without further delay. The protective departments must be given a priority for expansion to be adequate to properly serve and protect our ever-growing community.

MAJOR NEW EQUIPMENT

The new 750 G.P.M. pumper replacing the 1941 Ford 500 G.P.M. Pumper was placed in service in May. The old pumper was designated Engine 6 and will be kept as a reserve unit.

The 1951 fire alarm truck was replaced with a new and more serviceable unit.

A unit that can be used as a smoke ejector, or a high expansion foam generator has given the department another very useful piece of quipment.

A lightweighth resuscitator has been placed on Ladder 1 replacing the old and outmoded inhalator.

FIRE PREVENTION

The program of inspecting and conducting fire drills in the public schools, private schools, colleges, the rest home, and the new seminary has been carried on throughout the year.

Each year certain school grades and other groups are given educational tours of the fire station. The number of groups increases each year.

The supervision of, and the issuing of permits for, oil burner installations, oil and gasoline storage, storage of explosives, blasting, and the location of liquified gas cylinders was conducted throughout the year. The fire and building departments are required to work in close cooperation on certain inspections.

TRAINING

Drills for permanent and call firefighters were conducted in the usual manner by the Captain assisted by the two Lieutenants.

Men have attended in-state and out-of-state schools, seminars and fire service meetings, thereby better fitting them to cope with today's complex fire service demands.

FIRE ALARM

During 1965 the modernization and extension of the fire alarm system was continued.

Major items completed were as follows:

- a. New cable was installed on South Ave. from Newton St. to River Rd. and the entire length of Cliff Rd. With this work completed, mutual aid circuits to Newton and Wellesley are now available and when the south side Fire Station is built these circuits will be put into service.
- b. Installation of multi-conductor cable on the Boston Post Rd. to the Wayland town line.
- c. Continued replacement of old 2-conductor cable and further extensions of the existing system.
- d. The new central office fire alarm console was installed by the Bliss-Gamewell Co. and was placed in service in July.

During 1965, 19 fire alarm boxes were installed, four by the Town, eleven by contractors in new developments and four on private buildings. In addition three old style boxes were replaced by new boxes. The total number of fire alarm boxes in service as of December 31, 1965 was 178.

The fire alarm system is a constantly monitored system. It is tested and inspected at regular intervals, and necessary maintenance and repairs are done by regular men of the department trained in this field.

For 1966 the following major projects are programmed:

- a. Installation of multi-conductor cable on South Ave. from Ash St. to Wellesley St.
- b. Installation of multi-conductor cable on North Ave. from Lexington St. to Merriam St. in conjunction with the rebuilding of this pole line by the Boston Edison Co.

In 1964, I recommended the purchase of eight combination voice-code fire alarm boxes for the use of the public and the Police Dept. Because of continued studies of the needs of both the Fire and Police Departments, and the possibility of a new combined headquarters building as the result of these studies, I recommend that the purchase of these boxes and the necessary office equipment be incorporated into the overall equipment budget for this contemplated building.

The new central office console has been in operation for six months and has already demonstrated its worth in far more efficient operation of the fire alarm office. Nevertheless, it must be stressed that its location on the main apparatus floor of the present fire station is most undesirable, and I strongly urge that all groups concerned with the planning and construction of a new headquarters building proceed apace so that the Town in general, and the Fire Department in particular may benefit from having this and allied communications equipment housed in a modern isolated fire and soundproof office as required by the New England Fire Insurance Rating Bureau.

In 1965 the Fire Department responded to 220 Bell Alarms and 249 Still Alarms. Total of 469 Alarms as follows:

Fires in Buildings	81	Emergency Calls	89
Forest and Grass Fires	133	Accidental and	
Dump Fires	12	Needless Alarms	14
Vehicle Fires	29	False Alarms	16
All Other Fires	85	Mutual Aid Given	10
Second Alarms	3	Mutual Aid Received	23

From January 1, to December 31, 1965 the Fire Alarm Office operators on duty handled 469 alarms of fire, issued 1884 permits for outside fires and received and transmitted 8,264 radio messages for the Fire Department, Water Department and Highway Department.

1965 FIRE LOSS (INSURANCE PAID)				\$124,526.38

REPORT OF DIRECTOR OF CIVIL DEFENSE

1965 was a quiet year as far as Civil Defense activity was concerned, as there were no major changes in either State or Federal procedures which affect our local set-up.

The "night the lights went out" in November provided our best test of the year. Weston had lights and power in the Town Hall, Police Department and Civil Defense Center within minutes; and Civil Defense radios were on the air in two locations within 45 minutes.

When the new Fire and Police Station becomes a reality, hopefully it will include an Emergency Operating Center, the cost of which will be partially reimbursed by Federal matching funds.

As in the past, Auxiliary Police have contributed many hours of unpaid service to the town.

REPORT OF THE TREE WARDEN AND MOTH SUPERINTENDENT

Because the work of these two officers is closely related and the positions are held by the same person, a combined report is presented as in the past.

During 1965, contract and specifications for tree trimming, removal, repairs and spraying were prepared and bids invited by advertisement.

Under these contracts the pruning and tree removal program was carried on as in previous years. Approximately thirty-two Dutch Elm diseased trees were taken down. A great many weed trees, as well as decayed and dangerous trees were also removed. Although some of these latter trees may have appeared healthy, the Tree Warden, upon inspecting them, found that it would be more economical to remove these trees and make room for new plantings than to prescribe undue maintenance costs.

In the light of the drought conditions of last summer, ninety-five trees were purchased, tagged and are reserved at the nurseries to be planted in the spring of 1966.

The Tree Department also applied a poison ivy spray along most of the public ways in the Town.

The Moth Department carried on its usual spray program. One spray was applied to all Elm trees in the dormant stage for the control of bark beetle and Scolytus beetle. A second spray was applied to all of the roadside trees for the control of various shade tree pests. A third spray was applied to Elm trees only. The spray materials used in our spray program during the past season contained 25% Methoxychlor, Sevin and 25% Thiodan. These materials

were applied as recommended by the United States Department of Agriculture under close supervision and by competent licensed and experienced operators.

Once again, as Tree Warden and Moth Superintendent for the Town for the past eighteen years, I would like to take this opportunity to thank all department heads, including the Selectmen and the Finance Committee for understanding the great need for the care and maintenance of our Town trees. If Weston can continue to carry on a well rounded maintenance program designed to preserve the public shade trees, we shall make a substantial contribution towards the preservation of the rural character of the Town.

REPORT OF THE TOWN FOREST COMMITTEE

The year 1965 has seen a continuation of our long-range program of caring for the forests. This program was started in 1956 under the supervision of the New England Forestry Foundation and has been continued with the assistance of the Massachusetts Department of Natural Resources under the direct supervision of the Middlesex County Forester.

The Federal Government has supplied us with funds to assist us in this work, upon their approval of our method of conservation.

We continue to keep fire trails open and to keep up our weeding operations.

No additional town forest land was acquired by the Town this past year.

**REPORT OF THE INSPECTOR OF
GAS PIPING AND APPLIANCES**

There were 163 permits issued for a total of 287 appliances.

The sum of \$1,385.00 was collected in fees and the money paid to the Town Treasurer.

REPORT OF THE INSPECTOR OF PLUMBING

There were 218 plumbing permits issued as follows:

New Work	112
Alterations	106

The sum of \$1,347.50 was collected in fees and the money paid to the Town Treasurer.

Number of Permits Issued	347
Fees Collected	\$3,705.50

Health and Sanitation

REPORT OF THE BOARD OF HEALTH

Nine regular meetings were held during the year and the Co-operative Boards of Health met twice.

At the April meeting the Board reorganized with Dr. David H. Reid as Chairman, Dr. Thomas C. Peebles as Secretary, and Mr. Boardman Bump, Member. The staff was reappointed and, in addition, Mrs. Carter M. Bottjer was appointed an agent to issue burial permits.

The Board of Health has been studying the possibility of applying for a Federal Project to conduct a survey of Community Health needs. After due consideration it was felt that a demonstration project would be more suitable. Accordingly, and in cooperation with the Boards of Health of Needham, Wellesley, and Westwood, an application is being prepared for a Community Health Services Project Grant. The objectives of this Project are:

- (1) To demonstrate the feasibility, merits, and implications of multi-town, or area-wide, coordination of local community resources for the care of home-bound patients with long-term disease or chronic disability, including mental as well as physical handicap, and through it

- (2) To facilitate early discharge of chronically ill patients from hospitals and nursing homes, and to avoid unnecessary readmission of such patients, and

- (3) To improve home health services for such patients in an area comprising four towns.

It is hoped that Federal funds for this project will become available early in 1966.

Wellesley, Needham, and Weston operate as a Cooperative Board of Health in the employment of the Health Director. The possibility of establishing a Regional Health Department is being explored. A joint meeting was held, with three additional towns represented, to discuss this matter. As a result of the interest shown, further meetings will be held.

Diseases Dangerous to the Public Health

All communicable diseases and animal bites are required to be reported to the local Board of Health under State law. A total of 202 such diseases and bites were reported in 1965. For the tenth consecutive year there were no cases of poliomyelitis. See Table I for details.

Public Health Nursing

The Public Health Nurse had a very active year with her various responsibilities. Four Day Care Centers and seven summer Day Camps operated in Weston, and all are inspected as to conformity with the regulations before permits to operate can be issued by the Board.

Premature births reported to the Board of Health are referred to the nurse, who consults with parents and determines their need for financial or other assistance. Nine such births occurred in Weston families in 1965.

In addition, applicants for the dental clinic were screened, and follow-up visits were made on contagious disease cases. Table II details the nursing activities.

Sanitary Engineering

The year 1965 was one of marked activity. The increased responsibilities are attributed to the permit requirements of Articles VI and X of the State Sanitary Code. Article VI sets 'Minimum Standards for Swimming Pools' and Article X relates to 'Minimum Sanitation Standards for Food Service Establishments.'

There were 113 sewage disposal permits issued, and a total of 775 consultations and inspection services were provided. Services in this area continue to increase.

Subdivision plans submitted by land developers were evaluated, day camp facilities were inspected, and consultative services were provided on private water supplies.

The Sanitarian investigates all complaints received. Milk and water samples are collected, utensils from eating establishments are swabbed, and delivered to the Wellesley laboratory.

The Sanitarian also assists at the annual rabies immunization clinic.

Dental Services

Eligible children needing dental care are treated in the private offices of local dentists. 36 patients received dental care during 1965. A total of 207 operations were performed during 100 visits.

Laboratory

All laboratory work is performed in the laboratory of the Wellesley Board of Health without cost to the Town of Weston. This valuable service is much appreciated by the Board.

The Town water is tested at intervals and in addition, swimming pools and private water supplies are tested on request. Bacteriological analyses are made periodically on eating utensils from food

service establishments. Samples of milk sold in Weston are examined. During 1965 the following tests were performed.

Milk	12	Private water supplies	22
Eating Utensils	13	Town water supply ...	11
		Swimming pools	4

This is an increase of over 9% in laboratory work as compared with 1964.

Inspection of Animals and Slaughtering

Quarantine visits (due to bites)	32
Animal Census	607
Horses 64	Swine 530
Cattle 1	Goats 6
	Sheep 6

Two specimens were submitted to the Wasserman Laboratory for rabies diagnosis. Two cattle being shipped here from out of state were examined.

Births and Deaths

73 Births	0.88 per thousand
64 Deaths	0.72 per thousand

Biological Supplies and Diagnostic Test Outfits Dispensed

The Health Department distributes biologic supplies and diagnostic test kits to local physicians. These are supplied by the State Department of Public Health. The following were dispensed in 1965:

Biologicals:	Number of Doses
Diphtheria, Tetanus, Pertussis Antigen	690
Diphtheria and Tetanus	54
Diphtheria and Tetanus (Adult)	87
Immune Serum Globulin	52 c.c.
Poliomyelitis Vaccine (Oral Trivalent)	330
Smallpox	1015
Tetanus Toxoid	177
Typhoid Paratyphoid	175
Vaccine Needles	48

Diagnostic Test Outfits:

Throat Culture	168
Wassermann	24
Tuberculosis Sputum	5
Enteric Culture	10

PLUMBING INSPECTION

The Plumbing Inspector and Alternate Plumbing Inspector turn the permit fees in directly to the Town Treasurer and submit charges

for their subsequent inspections to the Board of Health. Two hundred and seventeen permits were issued in 1965, for which \$1,347.50 was collected in fees by the Town.

EXPENDITURES

Payments made under the direction of the Board of Health resulted in an approximate net per capita cost of \$1.26, exclusive of nursing services which are a school budget item.

Payments

Board of Health	\$5,944.13	
Cooperative Board of Health	5,005.55	
Plumbing Inspection	1,843.64	
Out of State Travel	53.49	
Board Members	100.00	\$12,946.81

Receipts

Permits, licenses, etc.	\$ 594.00

REPORT OF MOSQUITO CONTROL

The East Middlesex Mosquito Control District is comprised of fourteen cities and towns ranging from Brookline and Cambridge on the east to Framingham, Sudbury, Lexington and Bedford on the west, a total area of about 175 square miles. The object is alleviation of serious mosquito nuisance to human beings residing in these cities and towns through proper methods of control of larvae and adult mosquitoes through application of insecticides by trained and licensed operators. This is supplemented by judicious ditching, drainage, and maintenance of runoff systems to improve the long-term situation. Complete elimination of all mosquitoes is not the purpose of the Control District. Some species are unimportant, some hatches may be remote, and sometimes undesirable side-effects are too objectionable to justify more than a light hand spray to make conditions more bearable for residents.

The District operates with headquarters and garage at 11 Sun Street, Waltham, with the district superintendent, Mr. Robert L. Armstrong, in charge and with a part-time secretary and answering service to serve all residents of the area. Mr. Armstrong conducts the planning and execution of this work under the direction and control of the Board of Commissioners. One Commissioner represents each member City or Town in the Control District, being appointed by the State Reclamation Board with the advice and consent of the respective governing bodies of each community. The Weston Commissioner presently is Edward B. Hubbard, 56 Sunset Road.

It should be emphasized that the work of the Control Project is carried out by licensees of the Massachusetts Pesticide Board in the State Health Department Food and Drug Division operating under the regulations of that body. The Project can use only materials approved by Federal and State Authorities and only in the amounts specified. Any aggrieved person has the right of complaint on account of hazards to persons, animals, or birds or vegetation. The Control District uses its best efforts to avoid spraying to affect areas owned by people who have requested that their property be avoided. It has

been the policy of the District to give sympathetic consideration to all such requests and to govern its actions accordingly in the performance of its work.

However, it should be remembered that attention must be given to taxpayers of the communities in the Control District upon reasonable and proper request for the alleviation of serious mosquito infestation. Such requests were honored in 1965 in some cases by resort to hand-spraying in closely settled areas adjacent to some taxpayers requested avoidance of the use of pesticides of any kind. Road areas. Catchbasins were sprayed by motorcycle crews using

But for the existence of mosquito control commissions under proper supervision, guidance and control by duly constituted authorities of the State, Cities and Towns, there could easily develop a much less disciplined and less thoughtful effort for control by individuals, or department heads of communities who are not required to operate under such restrictions for the safety of people and wildlife. Sometimes, serious situations have arisen when there have been epidemics in various sections of the country creating public demands for forceful measures to eliminate suspected insect carriers. Our mosquito control commissions are the "fire wardens," always ready to take forceful action when so called upon, and perhaps the only agencies which could be relied upon to give sober consideration to the hazards of expanded insecticide control programs in an emergency.

In Weston \$8,552.21 was spent for mosquito control in 1965. Field work began with a limited amount of pre-season dusting in January and February. Methoxychlor was tried for the first time for this purpose. After the larvae of the Spring brood appeared in April and May, the breeding places were sprayed with Malathion or Baytex. A little granular Malathion was also used.

By the latter part of May, adult aedes mosquitoes were on the wing, and soon most of the west, central, and northern parts of Weston were thoroughly infested. The project depended mainly on truck fogging at night to reduce these infestations with either Malathion or Dibrom. Helicopter spraying was also done in several places for this purpose. Later use of the helicopter against the *Mansonia* mosquito breed was made in the Warren Avenue and Tyler Road areas, and catchbasins were sprayed by motorcycle crews using Baytex.

The principal drainage activity was conducted in the Fall or early Winter, and was largely confined to maintenance of existing drainage systems. The Town and the Control District has agreed upon plans for new ditching and drainage in some areas of Weston, which are awaiting approval of landowners, or favorable conditions, before action is initiated.

The East Middlesex Mosquito Commission has recommended an appropriation by Weston of \$8,600. for 1966, and this is fully supported by our Commissioner as reasonable and proper. The \$1,600.

increase over last year's appropriation is accounted for first by increases in salaries and wages. The wages of District personnel now conform more closely with the average wage levels of municipal employees performing similar classes of work in the area. Second by increased costs of materials, and third by purchases of new equipment. These three were in about equal proportions. It will be noted that actual expenditures in Weston and its share of overhead in 1965 were only a few dollars less than the amount suggested for 1966.

Highways and Bridges

REPORT OF THE SUPERINTENDENT OF STREETS

Maintenance:

The Highway Department performed its usual work throughout the year 1965. All streets were swept to remove the accumulation of sand from the winter and debris was picked up along the road sides. Grass along the roads was cut twice.

The following roads were resurfaced with bituminous concrete:

Bogle Street	Shady Hill Road
Highland Street	Wellesley Street (in part)
Overlook Drive	Woodchester Drive
School Street	

The following roads were resurfaced in full or in part during 1965 with seal coat of asphalt and sand or stone:

Bay State Road	Indian Hill Road
Blueberry Hill Road	Kings Grant Road
Bradford Road	Newton Street
Conant Road	Pond Brook Circle
Hickory Road	Ridgeway Road
Highland Street	

Sidewalks:

Sidewalk along School Street in the vicinity of the public schools was reconstructed with a grass plot and new curbing between sidewalk and roadway.

Chapter 90 Maintenance:

North Avenue (Route 117) from Merriam Street to Conant Road was resurfaced with bituminous concrete.

Drainage:

Three catch basins were installed in Apple Crest Road together with seven hundred eighty feet of ten-inch pipe. One catch basin with

twenty feet of pipe was installed in Fairview Road. Additional basins were installed in Sudbury Road and Evergreen Avenue, the latter to handle drainage from Tyler Road.

Work for Other Departments:

For the Recreation Commission the pool was drained and cleaned with new sand replacing that removed. An additional overflow drain was installed. Work to install a new engine at Cat Rock was completed.

For the School Department the entrance to Brook School drive was widened. Some work was done to assist in preparation of an additional play field at Woodland School. The demountable bleachers were removed from the Junior High School field to the Senior High School and reset.

Assistance was rendered to the Cemetery Department throughout the year when required.

New Equipment:

During 1965 a new dump truck was purchased as well as a new type of sidewalk plow.

Municipal Garage Addition:

Late in 1965 work was started on a five-bay addition to the Highway Department garage. It was not completed in time for the Winter season, but should be completed by early Spring, 1966.

Public Welfare

REPORT OF THE BOARD OF PUBLIC WELFARE

A total of fifty-three individuals received public assistance under the various programs during the year 1965. An expenditure of \$81,897.65 was made for assistance and administration. With reimbursements from the Federal and State governments and from individuals amounting to \$64,740.86, the net cost to Weston was \$17,156.79. We refer you to the accompanying tables.

The Social Security amendments of 1965 establishing a broad program of health insurance, known as "Medicare," for most persons 65 years of age and over and beginning July 1, 1966, is the most important change during the year as far as public welfare is concerned. All details of this new program as it pertains to our Old Age Assistance and Medical Assistance for the Aged recipients have not been fully worked out so that no predictions can be made at this time as to what affect it will have on public welfare. It is possible to state that all Old Age Assistance recipients who also receive Social Security benefits will be reimbursed by this Board for the \$3.00 deductions to be made monthly in payment for Part B of Medicare, namely, Supplementary Medical Insurance.

We list below the basic eligibility factors in the five categories of assistance. More detailed information may be obtained from the director. All laws, rules, regulations and policies in connection with these programs are constantly subject to change.

Old Age Assistance: Age and Residence: Needy persons 65 years of age or over who have resided in Massachusetts for one year immediately preceeding the date of application. Real Estate: Ownership of certain types of real estate does not affect eligibility provided a lien is taken. Personal Property or Savings: Not to exceed \$500.00 in the case of an individual, or \$1000.00 in the case of joint ownership by husband and wife. Insurance: Reasonable amounts of life insurance or endowment policy on which the Cash Surrender Value does not exceed \$1000.00; excess must be assigned to this Board. Responsibility of Children: Children must contribute a certain amount as determined by law when income exceeds the statutory exemptions.

Medical Assistance for the Aged: Age and Residence: Persons 65 years of age or over whose income and resources are insufficient to meet the costs of necessary medical services. Such medical care may be provided in the person's own home or in recognized medical facilities. There is no residence requirement. The applicant must be a resident of the State or a resident who is temporarily absent from the State. A person entering the State for the purpose of receiving medical care is eligible for Medical Assistance for the Aged only under specified circumstances. Real Estate: The ownership of an

interest in real property used as a home or from which a person is absent due to physical or mental illness is allowed. Ownership of an interest in any other real estate shall disqualify an applicant for assistance. Personal Property: A single person is allowed ownership of bank deposits, securities, cash on hand or similar assets up to \$2,000.00 in value. A married person is allowed \$3,000.00 in combined ownership of personal property with spouse when either or both apply for assistance. Income: A single person is allowed an income exemption up to \$150.00 per month when receiving medical care in own home (doctor, drugs, etc.) or short-term care in an institution such as an acute hospital. In this short-term medical care situation the recipient shall not be required to use any part of \$150.00 for this medical care as it is to be used for his home maintenance. A single person receiving long-term or permanent care in a licensed nursing home, licensed chronic hospital or public medical institution shall retain \$15.00 per month for personal needs and the balance shall be applied to the cost of the medical care.

For married persons receiving short-term medical care such as defined above, an exemption of \$225.00 per month of the combined income of husband and wife is allowed when either or both apply for assistance and no part of this \$225.00 need be applied to the cost of medical care. When both are receiving long-term medical care in a licensed nursing home, licensed chronic hospital or public medical institution, the recipients may each retain \$15.00 per month for personal needs and the balance of the income is to be applied to the cost of medical care. When a recipient is receiving long-term medical care and the spouse is residing outside of an institution, the recipient may retain \$15.00 per month for personal needs and there is an exemption up to \$225.00 per month of the remaining income up to the maximum of \$300.00 allowed for the maintenance of the spouse remaining in the home.

There are certain situations which must be worked out on an individual basis. It is therefore suggested that when an application for Medical Assistance for the Aged is made, full information be given as to resources so that this Board may determine whether or not there is eligibility. Insurance: The cash surrender value of insurance shall not be considered in determining the value of personal assets. Responsibility of Children: Children must contribute a certain amount as determined by law when income exceeds the statutory exemptions. This legal contribution shall not be considered as part of parent's income and be subject to exemption.

Disability Assistance: Age and Residence: Needy persons over 18 and under 65 who are permanently and totally incapacitated who have resided one year continuously in the State immediately preceding application. Real Estate: Ownership does not disqualify but if an applicant or recipient owns property other than that occupied as a home, continued eligibility depends upon his making a reasonable

effort to dispose of the property within six months at fair market value in order to convert it into assets which can be applied towards meeting present needs. Personal Property and Life Insurance: The amount of personal property together with the cash surrender value of life insurance shall not exceed \$500.00. The excess must be assigned to this Board or the policies adjusted. Responsibility Between Parents and Children: There is a responsibility both ways in this program. Children over 21 must contribute a certain amount as determined by law toward the support of parent receiving Disability Assistance when income exceeds the statutory exemptions. Parents must contribute a certain amount as determined by law toward the support of child of any age over 18 receiving Disability Assistance when income exceeds the statutory exemptions. However, a father and mother 65 years of age and over and a widowed mother 62 years of age and over are exempt from contribution toward the support of a disabled child.

Aid to Families With Dependent Children: Age and Residence: Dependent children under 18, or between 18 and 21 if completing secondary technical education, who have been deprived of the ordinary support or care of one or both parents. This includes loss by death, physical or mental incapacity of a parent in or out of an institution, desertion, divorce, annulment or separation, commitment of a parent to a penal institution, and the service of parent in the armed forces when allotment or other resources are insufficient. Also, an unemployed father or mother who complies with certain specified regulations may now apply for Aid to Families With Dependent Children. An eligibility requirement in this program is that the child must live in the home of one of a group of relatives who are defined in the statute as a "parent." There is no waiting period required before assistance may be given but the child must have resided one full year in the State prior to the date of application. Real Estate: Ownership does not affect eligibility but property not occupied must be converted into an asset. Personal Property or Savings: The total amount eligible parents and children may have must not exceed \$300.00. Insurance: A reasonable amount, but the cash surrender value must not exceed \$500.00 for an individual or \$1,000.00 for all family members participating in the assistance. The excess must be adjusted.

General Relief: Age and Residence: There is no age or residence requirement for needy persons within the relieving community. Real Estate: Ownership of certain types of real estate does not affect eligibility. However, if applicant owns real property other than that occupied as a home, continued eligibility depends on his making reasonable efforts to dispose of that property at fair market value in order to convert it into assets which can be applied toward meeting present needs. Personal Property and Life Insurance: There are no specified exemptions, but certain recommendations in regard to these two factors have been made by the Department of Public Welfare.

REPORT OF THE SCHOOL COMMITTEE

THE SCHOOL COMMITTEE ORGANIZATION

We held regularly scheduled meetings twice each month and numerous other meetings as necessary; during the year we attended sixty meetings either regularly scheduled, special, or with other Town committees. After the 1965 Town Meeting, School Committee members accepted the following liaison assignments:

"Our Schools" — Maryel F. Hartung

Special High School Building Committee — Robert Marden

Woodland School Building Committee — Robert Haydock

Finance Committee — Maryel F. Hartung, Robert Haydock,
J. Edwin Matz

Visiting Nurse Association — Margaret H. Pexton

Special School Plant Study Committee — J. Edwin Matz,
Maryel F. Hartung

Library Committee — Margaret H. Pexton

Decisions of the School Committee affect those of other Town committees, and the action of these other committees often influence the future of the schools. We therefore not only maintain liaison with other committees but also arrange joint informational meetings with Town committees as may be necessary. This year, we invited members of the Finance Committee to attend School Committee meetings which pertain to the budget, and we also meet with the Finance Committee before we make any budget request at a Town meeting.

Public school education is a function of the State. However, the law provides that each local school committee ". . . shall have general charge of all public schools . . ." and the basic law concerning the powers of school committees has remained virtually unchanged since 1826. The duties and responsibilities of the Committee under the law are extensive, but in general they are empowered to fix the school budget prior to presentation to the Town, employ teachers and other staff, set salaries, and determine the goals of the school program. We delegate administrative responsibilities to a superintendent of schools.

The School Committee for several years has been organizing existing policies and developing new policy where necessary. This year we formalized our internal operating procedures. To assist in our decision-making the Committee established these goals for education in Weston.

Statement of Goals

Central Purpose

The basic objective of the Weston Public Schools is to provide opportunity and assistance for every student to become a literate, intelligent and self-directed person within our community, nation and civilization.

Contributing Purposes

To achieve this central purpose the Weston Public Schools will seek to stimulate, guide and assist each student to the best achievement possible in the following aspects of individual development:

Intellectual Development — Insuring the acquisition of appropriate knowledge and the development of intellectual skills to utilize such knowledge, the stimulation of intellectual curiosity, and the development of interest in continuing education and self-education.

Skill Development — Developing mental and physical skills involved in or useful for intellectual and artistic activities; attaining of a high level of physical fitness; and acquiring appropriate skills in competitive and recreational sports.

Aesthetic Competence — Providing an acquaintance with the wide range of activities which enrich human life, including literature, theatre, art, music and design; encouraging the development of personal standards for assessing such activities; and enabling participation in such activities.

Civic Effectiveness — Providing the understanding attitudes and skills by which the individual will appreciate his relations with other people and with society, and will be an effective participant in the social, political and economic groups, organizations and communities of which he will necessarily be a member.

The Students

In the past ten years, our school enrollments rose steadily on an average of 6.7 per cent a year. This enrollment growth was the result of the building of an average of 88 homes annually and the large number of youngsters per dwelling unit as compared to other towns.

Each year, using school census data compiled by citizens acting for the Committee, we update our school population projections. We use these projections to predict the numbers of staff for the succeeding year and, over the long run, to determine building needs.

Weston students are above average in both achievement and ability; they are generally highly motivated and receptive to learning. The Weston schools serve a broad range of children and all children—bright, average, and slow learners—need programs which allow them to learn what they can at their own rate. We try to meet the needs of all our children within limits imposed by staff size and money. As the school system increases in size, our program will be able to become more varied to meet the needs and interests of students.

THE SCHOOL PROGRAM

Our program changes have come from two sources: 1) nationally-developed curricula, as in our new mathematics and science programs; 2) work by the Weston staff in areas where new programs are not available and where improvement is necessary, such as in our new primary and intermediate reading programs, our development of elementary school materials to encourage each child to accept more responsibility for learning, and our effort at the high school to help students with language problems.

Weston's research is focused upon how we may make use of innovations in our program which have been developed and tested elsewhere in a structured research project. Program change is intro-

duced to Weston not because it is new but rather because we feel it will improve our educational offering.

In all major subjects (except for a current vacancy in the social studies), a curriculum director co-ordinates program development throughout all the grades. Each school principal is responsible for the overall quality of the program in his school.

This year, the physical education staff re-examined the physical education program. A similar study is underway in guidance, involving all members of the guidance staff, the visiting nurses, and two principals.

We took another step this year toward a well-coordinated mathematics program. In kindergarten through grade six, students are using the Greater Cleveland Mathematics program, and in grades seven through twelve, School Mathematics Study Group materials.

Over the past three years, our kindergarten program has been revised to focus on language. The program still is geared to the individual child, however, so that some children enter first grade able to read while others complete only reading readiness.

In the Junior High School, French has been increased from four periods a week to five in grade eight, and from three to four and a half in grade seven. Next fall, most of these eighth-grade students will not be required to take French I in high school but will move directly to second year French.

Two sections of eighth grade students are enrolled in ninth grade algebra one, and will increase the numbers of students eligible for calculus or other advanced courses in the future.

In High School, we offered French V and Science V for the first time in September, 1965. The social studies program, under revision over several years, places added stress on political philosophy, economics, and culture of important historical periods. With an additional part-time music teacher, students can now be exposed to an improved choral program. For those students who were not responding to the regular English program the school staff developed a new "workshop" approach which groups students in grades nine and ten; and eleven and twelve. Five teachers work closely with the fifty boys and girls in the two workshops.

Until more space is available further program improvement at the high school level will be somewhat limited. The high school addition is already under construction and slated for completion by September, 1967. Departmental committees are working on future program improvement possible once the addition is available.

With the increase in the numbers of books in the school libraries, circulation has risen steadily. Circulation figures for the month of November, 1965, totalled 9,546 (this does not include books and materials used by students in the libraries). With the continued

trend away from textbooks and with the increasing use of paperbacks, the school library will become more and more vital as a resource to students and teachers. We need further expansion of library materials, especially at the elementary and senior high school levels.

Our staff does not have the necessary time or energy to plan program change during the school year. Most of the improvements described have resulted from our summer workshops. During the summer of 1965, 42 teachers, individually or in small groups, attended workshops which ranged in length from one to eight weeks.

THE STAFF

The Weston professional staff in September, 1965, totalled 151.5 teachers and nine administrators. In September, 1966, the staff with 2,790 students, will number 158 teachers and nine administrators.

The assembled teaching staff represented a wide geographical area and range of experience. Excluding interns from the Harvard Graduate School of Education, we employ a small number of inexperienced teachers each year—ten in 1965. Experienced, capable subject-matter specialists for the secondary schools continue to be scarce and our recruitment program covers 11 states and 32 colleges and universities. The applications of 1,240 prospective teachers were processed, 635 interviewed, and 39 hired, for our September, 1965 staff.

TEACHER SALARIES

The teachers' salary schedule is critical if we are to attract and hold capable personnel. Most suburban Boston communities compete each year for the same people. It has been our policy to maintain teachers' salaries at a highly competitive level, in the vanguard at least at the level of neighboring school systems. Last year, by State law, the salary minimum for a teacher with a bachelor's degree was raised to \$5,000.00, which had been Weston's minimum; our figure was moved to a \$5,250.00 minimum. This year, by State law, school committees must negotiate salary schedules and working conditions with representatives of the teachers and other school employees.

To continue to maintain a high quality of staff the following schedule has been adopted by the School Committee for 1966-67:

	B.A.	B.A. +15	M.A.	M.A. +15	M.A. +30	Doctorate
Minimum	5,500	5,725	6,000	6,200	6,400	6,800
Maximum	9,400	9,725	10,100	10,425	10,750	11,150

THE SCHOOL BUDGET

As the largest town government activity the schools composed approximately 64 per cent of the total town budget in 1964.

In recent years budget increases for school purposes have resulted from a rising number of children in the town attending public schools (about four per cent a year over the last five years), higher teachers' salaries to remain competitive with other schools (the average teacher's salary rate in Weston has increased by 4.5 per cent a year over the last five years), through higher expenditures for better school program (less than three per cent of the 1965 school budget increase), and inflationary increases in materials and supplies.

We find that two major factors ultimately determine almost 70 percent of the school budget: the average teacher's salary and the number of pupils per staff member—this for the most part resulting from the number of children in each classroom, however, also including specialized personnel and administration. In preparing the budget we remain constantly aware of these factors, weighing the effects of any change in staff and salaries with quality of education and cost. We believe we have maintained a healthy balance.

Each year we have updated a five year projection of school costs. We introduced this innovation three years ago in an effort to put current budget in perspective and to aid other town government bodies in their future planning.

SCHOOL FACILITIES

We budget each year an amount sufficient to maintain Weston's school buildings at a level necessary to avoid costly major repairs in future years. The relative youth of most of our schools has resulted in rather low expenditures for building maintenance, but as the buildings age this budget area will undoubtedly increase.

The Woodland School addition opened on scheule in September, 1965. The dedication and persistence of the Building Committee successfully avoided any crowding in existing classrooms by having the new space available when it was needed.

The March, 1965, Town Meeting authorized the Moderator to appoint a Special School Plant Study Committee to advise on future school building needs. After an eight month study this committee reported its recommendations to the School Committee, Finance Committee, Board of Selectmen, and Planning Board. The School Committee enthusiastically endorses the report of the Special School Plant Study Committee and plans to implement its proposals.

REPORT OF THE SPECIAL SCHOOL PLANT STUDY COMMITTEE

The Weston School Plant Study Committee appointed at the March 1965 Town Meeting studied at weekly meetings from last May to the end of November, site and plant needs for the Weston Public Schools. The report itself chronicles in detail this study. Its final chapter contains an evaluation of alternative courses of action considered by the Committee and recommends that steps be taken immediately toward the eventual construction of a new Junior High School next to the Town's Senior High School.

Leading to this recommendation was a series of circumstances which, taken together, convinced the Committee that the construction program should be launched. These can be summarized as: 1. lack of vacant space in the elementary schools for further expansion; 2. lack of vacant space at the junior high level for further expansion; 3. inadequacy of core facilities — cafeteria, auditorium, guidance offices — in the current Junior High building; 4. opportunity for substantial savings in the use of certain shared facilities between the Senior High and a proposed adjacent Junior High; 5. relative economy of providing for expansion on both the elementary and junior high level by building a new Junior High and converting the present Junior High to elementary use, rather than expanding the present Junior High and building new elementary facilities; 6. consideration of land availability and land use.

The Committee carefully considered four alternative courses of action: 1. building an addition to the present Junior High, with a probable consequence of needing a new elementary school and spending more for physical education space at the Senior High than would be spent for comparable space in a shared facility; 2. turning the Brook School complex into a Junior High by replacing Brook Building B with a new three-level building, and then converting the present Junior High to elementary use; 3. building a new Junior High adjacent to the Senior High site with a joint physical education facility, and converting the present Junior High to elementary use; 4. delaying decisions for a few years to avoid possible error in anticipating pressures.

Each of those alternatives was weighed against a list of criteria which the Committee felt must be satisfied: 1. there must be an opportunity to expand or change the educational program on the junior high level; and 2. it must be possible to change the K-6, 7-8 grade structure if in the future a middle school seems desirable; and 3. adequate playing fields and physical education facilities must be provided; and 4. the most economical configuration of elementary and junior high space consistent with the other criteria should prevail; and 5. the acquisition of land for schools in a rapidly-developing town must go beyond the foreseeable need for buildings to insure maneuver-

erability in case of unexpected enrollments; and 6. an investment in school plant should favor new facilities, other considerations being equal, so that old buildings may be retired in proper time; and 7. school facilities should be consistent with the Town's high educational esthetic, and developmental standards.

Among the first three alternatives, the only one able to satisfy these criteria was the third — building a new Junior High next to the High School. The Committee was in unanimous agreement that any expansion in the school plant should be accomplished in this way.

It remained to be decided whether immediate action toward expansion was warranted. Available enrollment projections alone could not be decisive. The Committee instead based its recommendations on the following arguments: 1. A "wait-and-see" policy could prove needlessly expensive to the Town; 2. provision must be made for a larger elementary school enrollment by 1970; 3. least costly would be a policy of taking initial steps toward the building of a new Junior High; 4. preliminary action, e.g. acquiring land, selecting an architect, and commissioning schematic drawings would bring the advantages of immediate action and still allow review before final commitment.

According to the schedule of action outlined in the recommendations, the March 1966 Town Meeting will see a request for funds to acquire additional land next to the High School site and a request for a Building Committee to proceed with preliminary plans, reporting in October of 1966. A special Town Meeting shortly thereafter would vote on funds for working drawings and construction of the new school. If the action proceeds as scheduled, the new facilities would be open for use in September of 1968.

REPORT OF THE WOODLAND SCHOOL ADDITION COMMITTEE

The Woodland School Addition Committee is pleased to report that the Woodland School Addition, composed of six classrooms and a large multipurpose room, was completed and opened on schedule in September 1965. The building was formally dedicated on November 23, 1965, as part of a program keynoted by Dr. Herold C. Hunt, Eliot Professor of Education, Harvard University, speaking on "What's Ahead for Our Schools."

The Woodland School Addition Committee was established by a vote at the Town Meeting on March 30, 1964 to build and equip an addition to the Woodland School. The Committee secured from school administration the requirements as to space and educational needs, retained the firm of Hugh Stubbins Associates, Inc. as architects for the addition, and adopted a budget which was approved by the Town at a Special Town Meeting held on June 9, 1964.

On September 17, 1964 when the bids for the addition to the Woodland School were opened at the Jones House, the lowest bid for construction of the addition in the amount of \$245,590 was \$34,090 greater than the estimate which the architect had submitted for use at the Town Meeting. The next four lowest bids were within \$4,800 of the low bid, indicating that the bids were competitive and reasonable. At a Special Town Meeting called October 26, 1965 an additional appropriation of \$34,000 was approved by the Town and the low bid of Cardarelli Construction Company was accepted.

Construction on the addition started in November 1964 and was substantially completed by August 1965. This early completion date facilitated the task of moving, setting up and starting operations on time in the new building.

REPORT OF THE WESTON WAR MEMORIAL EDUCATIONAL FUND COMMITTEE

The Weston War Memorial Educational Fund, originally founded as the Weston High School Alumni Scholarship Fund by a group of the Alumni of the Class of 1916 and friends, was formally accepted as a Town Fund at the annual town meeting of March 23, 1953. The Fund was created as a permanent memorial to the citizens of Weston who served in the armed forces in all wars. The purpose of the Fund is to "to assist and advance the post-secondary education of graduates of Weston High School."

The total principal amount of the Fund was \$8,149.21 as of January 1, 1965. Earned income during 1965 amounted to \$366.29. This was reduced by the amount of one scholarship. The income balance December 31, 1965, was \$200.32.

In 1965, additions to the Fund amounted to \$1,078.41, bringing the total principal amount of the Fund to \$9,227.62. Additions to the Fund were as follows:

Transfer from income to principal	\$ 75.00
Gifts	281.00
Profit on sale of securities	722.41

The committee gratefully acknowledges the gifts received during the year.

This year the scholarship was awarded to Mr. Richard L. Rowe, 15 Warren Avenue, who is attending Norwich University.

The Fund has grown primarily due to the gifts of recent graduating classes of Weston High School and of the class celebrating its twenty-fifth reunion. Persons wishing to make contributions to the Fund should communicate with the Secretary of the Committee at the Weston Junior High School, or with any member of the Committee.

Libraries

REPORT OF THE BOARD OF LIBRARY TRUSTEES

1966 will be a turning point for the Weston Public Library. The long struggle to maintain a high standard of service in an inadequate building must be resolved. The impressively farsighted work of the Building Committee offers the people of Weston an opportunity to have a handsome library, equipped to provide excellent service now and in the future — and at a cost the Town can well afford, especially in view of the Federal grant of \$100,000 available at this time.

The remarkable annual increase in use of the Library continues. Circulation rose 7,534 to a total of 139,895; 47.5% was use by pre-schoolers through Grade 6, 8.5% by Grades 7-12, and 44% by adult borrowers. The circulation of records increased by about one-third.

With almost 45,000 volumes, the Library collection is at capacity — a book must be discarded for every new one bought. We cannot begin to keep up with the vast increase in the number of books published each year that ought to have a place in a Public Library.

Fines, fees and proceeds from the sale of about 3,000 “weeded” volumes amounted to \$3,915.84 turned into the Town Treasury during the year. The State Aid grant for libraries was again \$2,065.25.

A new organization, the Friends of the Weston Public Library, was incorporated in 1965. This group is already active in support of better library service and facilities; and has sponsored a number of meetings to acquaint people with the Library and its needs, as well as a talk on public libraries by Mr. Milton E. Lord, Librarian Emeritus of Boston Public Library, and a printed brochure explaining the present library and its services to borrowers.

The trustees offer heartfelt thanks for the continuing help of the Garden Clubs, the Weston Arts & Crafts Assn., and the many citizens who have given their enthusiastic support to the Library. No expression can encompass our appreciation of the magnitude and excellence of the work of the Building Committee, or of the maximum morale and efficiency maintained by Mr. Bodge and the staff under extremely trying conditions.

We trust that their hopes — which are ours — will be realized.

Park and Cemetery

REPORT OF THE PARK AND CEMETERY COMMISSION

PARKS

The severe drought continued for its third consecutive year. Due to our uneasiness over the supply of water, sprinklers were used with intelligent care, and emphasis was put on the "soaking" of the newest shrubs. Such watering included the Weston Garden Club's attractive planting around the Town House.

At our request the Massachusetts Department of Public Works erected a curbing for the length of "Anniversary Park West" on Route 20 from the corner of School Street. We then loamed and reseeded the southern edge of this park with funds that had been donated in 1963 by public spirited citizens who had brought it into being for the 250th Anniversary Celebration of the Town's incorporation.

We also are pleased to acknowledge the generous gift last fall of 200 flowering shrubs both deciduous and evergreen, by the Case Estates of the Arnold Arboretum, which in early spring will be placed in the parks and cemeteries according to recommendations of Shurcliffe and Merrill, our consultants in planning and planting.

As the Town faces its inevitable growth, such evidences of concern by our citizens for the preservation of green areas is most encouraging to the Commissioners. We continue to work closely with the Planning Board, other Town committees, and various civic groups to the end that the charm of Weston's natural beauty will never be lost.

CEMETERIES

The implementation of our long range planning program has steadily continued. Certain steep roadways in Linwood Cemetery were hard-surfaced to prevent erosion and to reduce maintenance expense as our expansion continues. Simultaneously, in the southeastern section several gravel paths that had been steadily eroding and were expensive to maintain were loamed and seeded. We invite Weston residents to inspect the improved appearance and to note that better mowing can now be done in and around such areas.

Throughout the winter, a carefully planned clearing and thinning operation has been underway, guided by our landscape consultants, in the new section of Linwood that finally abuts the grounds of the Woodland School. When future extensions of Linwood are needed, our descendants should agree that another Town tradition has been reaffirmed.

We again would suggest that our fellow townsmen familiarize themselves with Weston's Cemetery Regulations which became effective April 1, 1963 and of which copies are available at the Town House. Especially would we remind them that Article 2, Section 2, provides:

"No lot shall be sold to any one not a resident of the Town of Weston at the time of such sale. No body shall be interred in such lot unless the deceased was at the time of his or her death an owner of such lot or was related by blood, marriage, or adoption to an owner of such lot."

Inquiries of any nature will be efficiently handled by our Burial Agent who can be reached through the Town House.

Transactions of 1965 are summarized as follows:

Number of lots sold:		31
Interments: Resident	28	
Non-resident	26	
	<hr/>	
	54	
Receipts:*		
Sale of lots	\$2,416.00	(1)
Sale of Perpetual Care	7,325.00	(2)
Annual Care of Lots	137.50	(3)
Interments	3,685.00	(3)
Grave Liners	605.00	(3)
Foundations	437.00	(3)
	<hr/>	
	\$14,605.50	

*All receipts were, in accordance with established practice, applied as follows:

- (1) Added to "Sale of Lots Fund"
- (2) Added to "Perpetual Care Fund"
- (3) Paid into the Town Treasury

REPORT OF THE RECREATION COMMISSION

Summer Program

Memorial Pool The pool opened its fifteenth season on June 23, 1965 and closed on September 6. There were 75 pool days with a grand total attendance of 38,082 people. This averages to 500.77 per day, and the highest daily attendance was 1,296. A chlorinating system was installed this year and it proved highly successful in keeping the bacteria count the lowest in the history of the pool. Normally the bacteria count was from 100 to 600 per million parts of water. The count this summer was 0 per million parts of water. The commission employed three consultants to look into the problem of clarification of the water. Upon their recommendation we are planning further improvements.

Playground. For eight weeks of the summer the playground located behind the Brook School is one of the most popular spots for children from the ages of 6 to 12 years. The daily attendance this summer was 175 to 225 children per day. The program consisted of elementary tennis lessons, archery, baseball, basketball, horse shoes, soft ball, tetherball, and group games. Five baseball games were played with teams from surrounding communities. Certificates were given to the children who passed the A. A. V. Physical Fitness Test. On every Friday afternoon a field day was held. Some 200 boys and girls were divided into teams and competed in various athletic events. The prize for the winning team is free watermelon. The gym is used in case of inclement weather.

Arts and Crafts. Arts and crafts proved to be a highly popular part of our summer playground program. The daily attendance averaged 100 per day for the first week, and then tapered down to 50 per day. Three instructors, two in elementary and one in advanced crafts kept the children busy and happy. A new person was added to the program to sell supplies in order to give the instructors more time to teach.

Advanced crafts and woodworking at the Junior High School shop had it busiest and most successful program in years. The total enrollment was 206 boys and girls. For reasons of safety the commission had to set a maximum attendance of 25 students per session.

The summer evening program for teenagers was transferred from the Case House to the high school cafeteria. This enabled better supervision and a more varied program. We are planning on having several full length movies included in our program next summer. Wednesday night movies were enthusiastically attended this summer.

This program is for age groups of 6 to 12 years and is held weekly at the Case House. Cartoons are shown weekly for 40 minutes.

Tennis. Tennis is one of the most enjoyable outdoor activities that the recreation commission sponsors. The major emphasis of improving our existing facilities was to resurface the tennis courts at the Brook School. The commission is thoroughly investigating the possibility of lighting some of the courts for night play. Indoor tennis was sponsored by the commission with one court available at the high school. Another court is being installed at the junior high school.

Instruction was offered five mornings a week at the high school courts for Junior and Senior high school students. The classes were broken down to ability groups averaging forty per day.

Fall, Winter and Spring Programs

Elementary Sports. A full sports program is offered for boys in grades 4 through 6 every Saturday morning from October to June. The program is held at The Brook School where flag football, soccer, basketball, volleyball, baseball, softball and group games are offered. An average daily attendance from 40 to 60 is maintained.

Junior High Sports. A new program was inaugurated this year for grades 7 to 8. Basketball fundamentals are taught and teams are set up to help the boys learn the sport through competition.

High School Sports. The high school gym is opened every Saturday afternoon from December 1st through March for high school students. They participate in basketball and volleyball.

Adult Recreation. A program of physical fitness exercises, basketball and volleyball is offered to adults. The men meet at the Junior High School and the women at the High School.

Skiing. Due to poor snow conditions we operated Cat Rock ski tow only five weekends last winter. On days when the slope was in use, daily attendance was from 200 to 300 people. Lessons were offered for young children; approximately 20 a day took advantage of this. The commission is planning to install a small tow for the younger and more inexperienced skiers.

Skating. The skating pond at the high school was used when the weather was favorable. The past few winters have not been conducive to freezing the pond. The Commission is making every attempt to make this area more useable.

Unclassified

REPORT OF THE WESTON-ROMBAS AFFILIATION COMMITTEE

Beginning the sixteenth year of affiliation with the town of Rombas, France, the Weston-Rombas Affiliation program for student exchange is sponsoring a year's study in Weston High School by Mireille Bedestroffer and Monique Steiner of Rombas. In Rombas for studies at the Lycee de Rombas this year are Emily Lombard and Sam Crocker. This is the second double exchange with Rombas and is highly successful from the point of view and reports of both towns. Last year's Weston student to Rombas, Susan Pexton, who made many friends for herself and for the Affiliation, has rejoined her Weston classmates for her senior year.

Carlos Cano from the Colegio de Aplicacao in Porto Alegre, Brazil, is the fifth student from that school to come to Weston High under our sponsorship. He has made friends easily and has provided helpful information about his school to Catherine Cole, Weston student who will go to the Colegio in February for a year of study under Weston-Rombas auspices.

Mireille, Monique, Susan and Carlos gave brief talks at the United Nations Day Banquet at Regis College in October and were warmly received by the audience that evening, as they were at a Weston High School assembly. The assembly also provided the opportunity for the presentation of specially-cast bronze medals made in Rombas to commemorate the 15th year of affiliation with Weston. The three medals, which had been entrusted to Mrs. Lawrence Pexton by the Mayor of Rombas at a reception held for the Pexton family during their visit with daughter Susan in Rombas last June, were presented by Mrs. Pexton to Town, School and Affiliation representatives. Recipients were Mr. Herman Koester, Jr., Chairman of the Board of Selectmen; Mr. Charles K. Cummings, Weston High School Guidance Director and a founder and continuous supporter of the Affiliation; and Mrs. Evon Z. Vogt, Chairman of the Affiliation in Weston. The medals have on one side the seal of the Ville de Rombas, Moselle, and on the reverse an inscription: "Weston-Rombas 1950-1965" surrounded by a grape-leaf wreath.

On January 9, 1966 the yearly reception for our Weston students in Rombas was held with the customary formal speeches by the Mayor, the U. S. Consul from Metz, M. Babin, Chairman of the Affiliation in Rombas, and the Weston students, Sam Crocker and Emily Lombard. Also present for the event was Emily's father, Mr. George Lombard of Weston, who gave to Rombas' Mayor a letter of appreciation and greetings from Mr. Herman Koester, Jr., for Rombas from Weston.

As coordinator of all individual or group programs bringing foreign students to study at Weston High School, the Weston-Rombas Affiliation for the third year is cooperating with the American Youth Exchange, Inc. in the two-month vacation visits of Monica Gil Bertero and Maria Christina Seiler of Argentina. Nadine Berry and Linda Cail of Weston spent their vacation last July and August in Santiago, Chile, on the same exchange program for which Mrs. Richard P. Berry of Weston is the New England area chairman.

Mr. Charles K. Cummings resigned his active membership on the Committee for reasons of health in the Spring of 1965. The affiliation regrets this resignation of one of its founders and subsequent guiding lights, but are, nonetheless, grateful for his continued interest and help on even a limited basis. His position as a representative of the Weston High School Faculty has been filled by Miss Rasma Jurjans.

The Weston-Rombas Affiliation committee, which is small in number in relation to its enlarged activities, depends upon the continued interest, and the financial and moral support of Weston townspeople who share our hopes for better understanding among the world's peoples through student exchanges.

Besides the practical arrangements involved in the student exchanges, the following fund-raising events have been planned and carried out by the committee:

A privately-sponsored "Tasting of the Wines of France" in January.

"Skiing America," movie narrated by Sverre Engen in November.

"A Naturalist's Trip Around the World," slide-lecture by Mr. Irving C. Keene, former Weston High School biology teacher, an event co-sponsored by Weston-Rombas and The Weston Forest and Trail Association in late December.

Sale of excess Christmas Cards of former years by the Weston High School French Club, the Waltham Savings Bank (where special thanks are due Mr. Lencto) and by committee members. A new card will be available for Christmas 1966.

Host families for the visiting foreign students contribute immeasurably toward the continuing success of the Weston-Rombas student exchange program, and the committee wishes to express its gratitude to the following families who have opened their homes to our young visitors in the past year:

Mr. and Mrs. James M. Banghart
Mr. and Mrs. James R. Bright
Dr. and Mrs. Vincent E. Campelia
Mr. and Mrs. Clem W. Collins
Mr. and Mrs. Joel B. Covington
Dr. and Mrs. Demetre J. Decaneas

Mr. and Mrs. Harold Downing
Mr. and Mrs. Jay A. Fay
Mr. and Mrs. John T. Griffin
Mr. and Mrs. Woodford L. Flowers
Mr. and Mrs. Alexander Day Mackintosh
Dr. and Mrs. Paul McGuff
Mr. and Mrs. Laymon Miller
Mr. and Mrs. Arthur T. Monahan, Jr.
Mr. and Mrs. Arnold P. G. Peterson
Mr. and Mrs. Lawrence H. Pexton
Mr. and Mrs. Robert A. Stauffer
Mr. and Mrs. George C. Terkelsen
Mr. and Mrs. Robert A. Townsend
Mr. and Mrs. Richard T. Wareham
Mr. and Mrs. Robert A. Weaver
Mr. and Mrs. W. Bruce Wholey

Water Department

REPORT OF THE BOARD OF WATER COMMISSIONERS

Again in 1965 purchases of water reached a new peak. Water rate receipts were \$129,168.61, a 17.9% increase over the previous record year of 1964. Ninety-two new services were added during the year bringing the total services to 2,463 by year end. We purchased and pumped 357,501,120 gallons of water during the year compared with 375,427,970 in 1964. This is the second year in a row that we have been able to increase sales of water while at the same time reducing the amount of water pumped. We attribute this again to the continuing efforts of the department to find and repair leaks. Twenty-two leaks were repaired during the year.

The maximum daily demand for water occurred on July 17 with a record demand of 2,783,920. The minimum week was the week of July 22. Through voluntary restrictions by the users of water in the town, the Water Department was able to supply the town's needs during the M.D.C. emergency from its own wells and as a result took no water from the M.D.C. connection from the time the emergency was announced until the end of the year.

Although the new Wellesley Street Station was able to take water from the M.D.C. by July through a temporary connection, the main pump was not delivered in 1965 and we now anticipate that the station will be completed by Spring of 1966.

The following comparative statistics show the Water Department and operations for 1964 and 1965.

WESTON WATER DEPARTMENT STATISTICS—1964-1965

	1965	1964
Kendal Green	126,588,420	82,027,620
Nickerson Field	218,522,900	254,633,500
Fitzgerald Well	8,771,800	38,292,100
Wellesley Street	2,970,000	
Total Gallons Pumped	356,853,120	374,953,220
Total Gallons Purchased	648,000	474,750
Pumped and Purchased	357,501,120	375,427,970
Greatest Amount in One Day	2,783,920 (7/15/65)	2,217,500 (5/28/64)
Greatest Amount in One Week	12,858,080 (7/22/28/65)	13,239,840 (5/22/28/64)
Greatest Amount in One Month	53,148,580 (7/65)	44,708,800 (7/64)
Miles of Main Added	2.16	3.90
Miles of Main Acquired	0.00	0.00
Total Miles of Main	74.21	72.05
New Services	92	110
Total Services	2463	2371
Hydrants Added	18	40
Total Hydrants	623	605
Receipts:		
Water Rates	\$129,168.61	\$109,530.97

Extension Costs Reimbursed	79,799.13	\$61,694.48

Town Records, 1965, Condensed

ANNUAL TOWN MEETING - MARCH 27, 1965

Pursuant to a warrant duly served the annual town meeting was called to order in the lower town hall by Richard H. Field, Moderator, at 8:00 A.M., March 27, 1965, for action on Article 1.

It was unanimously voted to dispense with the reading of the warrant.

Article 1. To bring in their votes for the following town officers to be voted for on one ballot:

	For term of
A moderator	One year
One selectman	Three years
A town clerk	Three years
One member of the board of public welfare	Three years
One assessor	Three years
Two members of the school committee	Three years
One member of the school committee (to fill vacancy)	Two years
A treasurer and collector	One year
One library trustee	Three years
One member of the board of health	Three years
One commissioner of trust funds	Three years
Three measurers of lumber	One year
One water commissioner	Three years
One member of the planning board	Five years
A tree warden	One year
Two members of the recreation commission	Three years

The results of the election were as follows:

MODERATOR (for one year)

Richard H. Field, 74 Sudbury Road, Caucus Nominee	1339
Blank	158
Scattering	3

TOWN CLERK (for three years)

Edward M. Dickson, 125 Highland St., Caucus Nominee	1331
Blank	167
Scattering	2

SELECTMAN (for three years)

Florence E. Freeman, 70 Montvale Rd., Caucus Nominee	953
Frederick A. Woodside, 51 Willard Rd., Caucus Nominee	540
Blank	7

BOARD OF PUBLIC WELFARE (for three years)

Herbert Crouch, 29 Hidden Rd., Caucus Nominee	1326
Blank	173
Scattering	1

ASSESSOR (for three years)

Gerard R. DeNapoli, 27 Brook Rd.	648
William W. Hoblitzell, III, 83 Woodchester Dr., Caucus Nominee ..	672
James Robbins, 355 Highland St., Caucus Nominee	1062
Blank	277
Scattering	1

The business meeting was called to order in the auditorium of the Senior High School by Richard H. Field, Moderator, at 8:00 P.M. o'clock on March 29, 1965, to act on the remaining articles of the warrant. Mr. Field determined and announced the presence of a quorum.

The following resolution was unanimously adopted:

Resolved: We, the citizens of Weston in annual town meeting, take this occasion to express our appreciation of the faithful and able service to the Town of the following officers:

Geoffrey A. Sawyer, who for many years has devoted himself to the difficult and important duties of the board of assessors.

Leo F. Glynn, member of the school committee and former member of the High School Building Committee; an industrious and wise participant in the administration of the affairs of the Town's largest department.

Henri B. Atkins and Walter H. Palmer, interested in promoting the recreational activities of the Town.

Harold A. Ogilvie, for a long period of years a measurer of lumber.

Arthur L. Coburn, Jr., commissioner of trust funds, who has contributed his expert knowledge to the wise investment of the Town's trust funds.

Raymond L. Clapp and Joseph J. Sedik, who have contributed much to the discharge of the important duties of the board of appeals.

Herman Koester, Jr., member and chairman of the finance committee prior to his present service as a selectman.

Article 2. To raise and appropriate such sums of money as may be necessary to defray the costs of government and other town charges for the current year; and to fix the salaries and compensation of elected officers of the Town for the current year.

Voted (1): That the several sums of money recommended by the selectmen for appropriation in 1965 in accordance with section 5 of Article II of the by-laws, set forth on pages 41 to 56 of the annual town report for 1964, be appropriated for their respective purposes set forth on said pages.

The appropriations voted were as follows:

General Government

Selectmen — Chairman's Salary	\$ 200.00
2nd Member's Salary	100.00
3rd Member's Salary	100.00
Expenses	450.00
Special Counsel Fees	1,000.00
Engineering Expenses	4,000.00
Finance Committee	300.00
Town Accountant and Executive Secretary—	
Salary	16,550.00
Offices Salaries	7,320.00
Expenses	594.00

Voted (2): That the rates per year of the salaries of the members of the board of selectmen, the town clerk, the treasurer and collector, the members of the board of public welfare, the members of the board of assessors, the members of the board of health, and the members of the board of water commissioners be fixed, effective from January 1, 1965 in amounts equivalent to the amounts appropriated for such salaries, respectively, by previous vote under this article; and that all other elected officers of the Town be unpaid.

Voted (3): That five persons be appointed by the moderator to serve as a Memorial Day Committee in 1965, with authority to expend for the observance of that day the sum of \$425.00 already appropriated for that purpose by previous vote under this article.

Voted (4): That five persons be appointed by the moderator to serve as a United Nations Day Committee in 1965, with authority to expend for the observance of that day the sum of \$200.00 already appropriated for that purpose by previous vote under this article.

Voted (5): That in purchasing property any allowance made for turning in other property may be applied to the purchase price.

Article 3. To authorize borrowing of money in anticipation of revenue and issuance and renewal of refunding of a note or notes therefor.

Voted: That the town treasurer, with the approval of the selectmen, be authorized to borrow from time to time in 1965 in anticipation of 1965 revenue, and to borrow from time to time in 1966 in anticipation of 1966 revenue, to an amount not exceeding in either year the amount permitted by General Laws, chapter 44, section 4, or \$1,500,000.00, whichever is smaller; and to issue therefor a note or notes each payable within one year from its date, and to renew or refund any note or notes given for a period of less than one year in accordance with General Laws, chapter 44, section 17.

Article 4. To transfer money from the overlay reserve fund to the reserve fund.

Voted: That the sum of \$25,000.00 be transferred from the overlay reserve fund to the reserve fund.

Article 5. To appropriate money from available funds for the purpose of deduction by the assessors in determining the annual assessment of taxes in the current year.

Voted: That this article be passed over and so disposed of.

Article 6. To appropriate for the support of the Public Library the dog license refund received in the current year and available money from State aid for the Public Library.

Voted: That the sum of \$1,787.76, being the amount of the 1965 dog license refund received from the treasurer of Middlesex County, and the sum of \$2,065.25, being the amount available from State aid for the Public Library, be appropriated for Libraries - Other Expenses, in addition to the amount already appropriated for that purpose by vote under Article 2.

Article 7. To appropriate money from available funds in anticipation of state and county reimbursement for chapter 90 highway maintenance and construction.

Voted: That the sums of \$3,000.00 and \$19,200.00 be appropriated from available funds to meet that part of the cost of chapter 90 highway maintenance and chapter 90 highway construction, respectively, which falls upon the Commonwealth and Middlesex County; the reimbursements

from the Commonwealth and Middlesex County to be restored upon their receipt to available funds.

Article 8. To appropriate money, to be provided by borrowing and/or by taxation and/or from other sources, for laying or relaying water mains, and to authorize the issuing of bonds or notes.

Voted Unanimously: That the sum of \$125,000.00 be appropriated to the "Blanket Extensions" account of the water department for the use of the water commissioners for laying or relaying water mains not less than six inches but less than sixteen inches in diameter; and that of said sum \$50,000.00 be appropriated from available funds and \$75,000.00 be raised by borrowing outside the statutory limit under the authority of chapter 44 of the General Laws, as amended, to which end the town treasurer, with the approval of the selectmen, be authorized to prepare, issue, and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loan or loans, all particulars as to the form, issue, and sale of said bonds or notes, their annual maturities, and the rate and times of payment of interest on them.

Article 9. To appropriate additional money (including any available unexpended balance or balances) for construction of a pumping station, installation of pumping station equipment, and installation of water mains incidental to the Town's admission to membership in the Metropolitan Water District and connection of the Town's water system with the District's water system.

Mr. Richard Hall read and filed with the Town the following letter:

"March 23, 1965

Richard H. Field, Esquire
Moderator, Town of Weston
Massachusetts

Dear Sir:

The Finance Committee of the Town of Weston at a meeting duly called and held on Tuesday, March 23, 1965, voted in accordance with the provisions of General Laws, Chapter 44, Section 33B, to recommend the transfer of \$2,043.25 from the appropriation 'Water Supply, Plant and Facilities, Rate Structure — Study and Investigation' to the appropriation 'Wellesley Street Pumping Station Construction'.

Respectfully,

Richard C. Hall
Victor Harnish
Randolph P. Rice
John H. Bishop
Paul D. Littlefield

A majority of the members
of the Finance Committee"

Voted: That the unexpended balance of \$66.30 of the 1953 appropriation for development of an additional well field, the unexpended balance of \$514.51 of the 1959 appropriation for laying a water main in South Avenue, and the unexpended balance of \$6,875.94 of the 1962 appropriation for laying a water main in Highland Street be appropriated, and \$2,043.25 of the balance of the 1960 and 1962 appropriations for study and investigation of water department and water system matters be transferred, for the use of the water commissioners for construction of a pumping station, installation therein of original pumping station equipment, and installation of water mains not less than sixteen inches in diameter, all as incidental to the Town's admission to membership in the Metropolitan Water District and connection of the Town's water system with the District's water system.

Article 10. To amend Section 10 of Article II of the By-Laws to read substantially as follows:

Section 10 (a). There shall be a Finance Committee composed of nine citizens of the Town, who shall serve without pay and shall not, while serving on the committee, hold any other town office. The Moderator, after the annual town election in 1966 and prior to April 30, 1966, shall appoint two members of the committee for terms of three years, two members for terms of two years, and two members for terms of one year; and annually thereafter, following the town election and prior to April 30, shall appoint two members for terms of three years. At the annual town election in 1966 one member shall be elected for a term of three years, one member shall be elected for a term of two years, and one member shall be elected for a term of one year; and at each annual town election thereafter one member shall be elected for a term of three years. In 1966 and thereafter the official ballot used for the election of town officers shall include the office of member of the committee in accordance with the foregoing. The term of each member shall commence on April 30 in the year of his appointment or election, and he shall hold office for the term for which he was appointed or elected and until another person shall be qualified in his stead. As to an appointive member a vacancy shall be filled by the Moderator for the unexpired term. As to an elective member a vacancy shall be filled by the remaining elective members and the selectmen in accordance with General Laws, chapter 41, section 11. All terms of membership on the committee existing prior to April 30, 1966, shall end on that date.

(b). The committee may confer with town officers and committees and may hold public hearings; and shall, prior to each annual town meeting, confer with the Selectmen for consideration of the annual budget. The committee may consider all financial and other questions coming before the Town for action or affecting the interests of the Town, and may at any time make reports or recommendations to town officers or committees or to the voters, which shall be published at the expense of the Town if the committee so requests.

Mr. Frederick Woodside Moved: That Section 10 of Article II of the By-laws be amended to read as set forth in Article 10 of the warrant for this meeting.

Mr. Woodside's motion was defeated.

Article 11. To increase the number of members of the school committee from five to seven and to provide for the election of the additional members.

Mr. Frederick Woodside **Moved:** That the number of members of the school committee be increased from five to seven, and that at the annual town election in 1966 two additional members be elected for terms of three years.

Mr. Woodside's motion was defeated.

Article 12. To adopt substantially the following standing vote: that the assessors' valuation list, in the form of the list published as of January 1, 1963, be published once each year, and that the selectmen for each publication determine the number of copies to be prepared, the method of making them available to the public, and the charge, if any, for them.

Mr. Frederick Woodside **Moved:** That the assessors' valuation list, in the form of the list published as of January 1, 1963, be published once every year, and that the selectmen for each publication determine the number of copies to be prepared, the method of making them available to the public, and the charge, if any, for them.

Mr. Woodside's motion was defeated.

Article 13. To repeal Section 9 of Article II, of the Town By-laws which reads as follows:

Section 9. No person shall distribute or display posters, handbills, placards, pamphlets, or other advertising matter within the limits of any highway, or other public property in the town without first obtaining a written permit therefor from the Selectmen.
on the grounds that this by-law is unconstitutional under the Constitution of the Commonwealth of Massachusetts and the Constitution of the United States of America.

Mr. Frederick Woodside **Moved:** That Section 9 of Article III of the By-laws, reading as follows: "Section 9. No person shall distribute or display posters, handbills, placards, pamphlets, or other advertising matter within the limits of any highway, park, or other public property in the Town, without first obtaining a written permit therefor from the Selectmen", be repealed.

Mr. Woodside's motion was defeated.

Article 14. To take action respecting an unrestricted legacy given to the Town in the will of B. Loring Young.

Voted: That the legacy given to the Town in the will of B. Loring Young be established as a fund to be called the B. Loring Young Fund and expended under the direction of the selectmen for the purchase of books and other publications for the Town Hall.

Article 15. To take action respecting a legacy given to the Town in the will of Austin S. Hale with a request that it be used "for youth activities".

Voted: That the legacy given to the Town in the will of Austin S. Hale with a request that it be used "for youth activities" be expended under the direction of the Director of Physical Education and Athletics of the public schools for the erection of a flagpole on the athletic field at the Senior High School and the purchase of a flag or flags.

Article 16. To establish a special committee to study and investigate the plan, facilities, physical needs, and sites of the public schools, and to appropriate and/or transfer money for the use and purposes of such committee.

Mr. Richard Hall read and filed with the Town the following letter:

"March 23, 1965

Richard H. Field, Esquire
Moderator, Town of Weston
Massachusetts

Dear Sir:

The Finance Committee of the Town of Weston at a meeting duly called and held on Tuesday, March 23, 1965, voted in accordance with the provisions of General Laws, Chapter 44, Section 33B, to recommend the transfer of \$2,200 from the appropriation 'Study of Public School Plant Problems' to the appropriation to be requested under Article 16 of the warrant for the annual town meeting, March 29, 1965.

Respectfully,

Richard C. Hall
Victor C. Harnish
Randolph P. Rice
John H. Bishop
Paul D. Littlefield

A majority of the members of
the Finance Committee"

Voted: That a special school plant study committee of seven citizens of the Town be established (and continue in office until discharged by the Town) to study and investigate the plant, facilities, physical needs, and sites of the public schools, and to make a written report with recommendations to the Town as soon as possible—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the sum of \$2,800.00 be appropriated, and \$2,200.00 of the balance of the 1963 appropriation for a study of public school plant problems be transferred, for the use and purposes of the committee.

Article 17. To appropriate money for construction and original equipping and furnishing of an addition to the Senior High School.

Voted: That the additional sum of \$33,000.00 be appropriated for the use of the special Senior High School addition committee for the construction and original equipping and furnishing of an addition to the Senior High School pursuant to the vote adopted at a town meeting on March 30, 1964, under Article 21 of the Warrant.

Article 18. To establish a special committee to study and investigate the whole problem of sewage treatment and disposal, and to appropriate money for the use and purposes of such committee.

Voted: That a special sewage study committee of five citizens of the Town be established (and continue in office until discharged by the Town) to study and investigate the whole problem of sewage treatment and disposal, and to make a written report with recommendations to the Town as soon as possible—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the sum of \$5,000.00 be appropriated for the use and purposes of the committee.

Article 19. To establish a special committee to study and investigate the plant, facilities, physical needs, and sites of the fire department and the police department, and to appropriate money for the use and purposes of such committee.

Voted: That a special fire-police study committee of five citizens of the Town be established (and continue in office until discharged by the Town) to study and investigate the plant, facilities, physical needs, and sites of the fire department and the police department, and to make a written report with recommendations to the Town as soon as possible.—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the sum of \$2,000.00 be appropriated for the use and purposes of the committee.

Article 20. To accept any or all of layouts of Fairview Road, Surrey Lane, Country Drive, Lawrence Road, Black Oak Road, Nobscot Road, and Overlook Drive as public town ways made by and described in orders of the selectmen adopted on March 17, 1965, on file in the office of the town clerk.

Voted: That the Town accept layouts of Fairview Road, Surrey Lane, Country Drive, Lawrence Road, Black Oak Road, Nobscot Road, and Overlook Drive as public town ways made by and described in orders of the selectmen adopted on March 17, 1965, on file in the office of the town clerk.

Article 21. To amend the zoning by-law, Article VIII of the by-laws, by striking out subsection B of section VIII and inserting in place thereof a new subsection B reading substantially as follows: B. An appeal to the board of appeals may be taken by any person aggrieved

by reason of his inability to obtain a permit from any administrative official under the provisions of the zoning statutes, or by any officer or board of the Town, or by any person aggrieved by any order or decision of the inspector of buildings or other administrative official in violation of any provision of the zoning statutes or of this by-law. An appeal to the board of appeals shall be taken within thirty days from the date of the order or decision appealed from, by filing a notice of appeal, specifying the grounds thereof, with the town clerk.

Mr. H. Kenneth Fish read and filed with the Town the following report:

"March 23, 1965

Richard Field, Esquire
Moderator, Weston Town House
Weston, Massachusetts

Dear Sir:

In accordance with General Laws, Chapter 40A, Section 6, as amended, the Weston Planning Board hereby submits to the Weston Town Meeting its final report respecting a proposal to amend paragraph B of Section VIII of the Zoning By-law. The proposed amendment would, in effect, rephrase paragraph B in a minor way and change the time within which an appeal may be taken to the Board of Appeals from ten days, as now provided, to thirty days. A public hearing on such proposal was held on March 10, 1965 after publication of notice in the Town Crier on February 18 and February 25, 1965.

At the time paragraph B of Section VIII of the Zoning By-law was adopted by the Town, the provisions of Chapter 40A of the General Laws (the enabling statute) authorized the Town to prescribe the time within which an appeal to the Board of Appeals could be taken.

An amendment to Chapter 40A enacted in 1963, in effect, rescinded the authority previously granted to the Town to prescribe the appeal period, and now provides, in part, that any appeal to the Board of Appeals 'shall be taken within thirty days from the date of the order or decision which is being appealed...'

In order to up date paragraph B of Section VIII of the Zoning By-law and have it conform with the provisions of Chapter 40A, now in effect, the Board recommends that paragraph B of Section VIII of Zoning By-law be amended as proposed.

Respectfully submitted,

WESTON PLANNING BOARD

By: William A. Elliston, Chairman
George M. Lovejoy, Jr.
William C. Brown
Robert A. Townsend
H. Kenneth Fish"

Voted unanimously: That the zoning by-law, Article VIII of the by-laws, be amended by striking out subsection B of section VIII and inserting in place thereof a new subsection B reading as set forth in Article 21 of the warrant for this meeting.

Article 22. To amend the zoning by-law, Article VIII of the by-laws, and the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, substantially as follows:

(1) By changing, in section IV, subsection A, the word seven to read eight.

(2) By inserting, in section IV, subsection A, the following new classification: 8. Office and research districts.

(3) By inserting in section V a new subsection CC as follows: CC. OFFICE AND RESEARCH DISTRICTS. In these districts buildings, structures, and premises may be used for one or more of the following purposes:

1. Church or other religious purpose.
2. Educational purpose.
3. Public purpose including municipal purpose.
4. Office or office building.
5. Research establishment.
6. Any use which is incidental or accessory to the foregoing, including, in the case of a research establishment, light manufacturing not for production.

No building, structure or premises, in whole or in part, shall be used in the office and research districts for any purpose other than those above specified in this subsection, except that in appropriate instances and subject to the provisions of section VIII, subsection C, the board of appeals, by special permit in each instance, may allow use thereof for any other purpose which the board determines to be similar to one or more of those above specified and consonant with the character of the district, but not for residential purposes.

The following regulations shall be applicable in the office and research districts:

(a) Signs shall not be permitted except non-illuminated identification signs stating only the name or names of the occupant or occupants, not exceeding 100 square feet in area, and located, flushmounted, on buildings.

(b) No outside storage shall be permitted except storage for refuse properly enclosed and screened from view.

(c) All setback areas and areas not used for parking, buildings, structures or driveways shall be suitably landscaped with lawns, trees, shrubs and other plantings, and shall be maintained in a sightly and well kept condition.

(d) Adequate maneuvering areas and loading facilities for trucks shall be provided on the lot for each building.

(4) By inserting in section VI a new subsection DD as follows:
DD OFFICE AND RESEARCH DISTRICTS. In the office and research districts: (a) every lot shall have an area of at least 100,000 square feet; (b) no building or structure shall be situated less than 60 feet from the street side line; (c) the total area of all floors of the building or buildings on one lot shall not exceed 50 percent of the total area of that lot; (d) on each lot one parking space shall be provided for each 350 square feet or fraction thereof of the total area of all floors of the building or buildings on that lot; (e) no parking shall be permitted between a building and a street.

The board of appeals, by special permit in each instance, may allow exceptions to the foregoing requirements of this subsection DD where unusual circumstances are involved or where a literal enforcement of such requirements would involve substantial hardship or practical difficulties, and where desirable relief may be granted without substantially derogating from the intent or purpose of such requirements; and in granting such a permit the board may impose reasonable safeguards, conditions and limitations and may require reasonable security for their observance.

(5) By changing the legend and other features of the zoning map so as to indicate the additional classification office and research districts.

(6) By placing in an office and research district on the zoning map the area (heretofore in a residence district A) bounded northerly by the north line of Riverside Road, westerly by the east line of Park Road, southerly by the location of the Boston and Albany Railroad, and easterly by land of the Commonwealth.

Mr. George M. Lovejoy, Jr. read and filed with the Town the following report:

"March 23, 1965

Richard H. Field, Esquire - Moderator
Weston Town House
Weston, Massachusetts

Dear Sir:

In accordance with General Laws, Chapter 40A, Section 6, as amended, the Weston Planning Board hereby submits to the Weston Town Meeting its final report respecting a proposal on which the Board held a public hearing on March 11, 1965, after publication of notice in the Town Crier on February 25, 1965 and March 4, 1965, to amend the Zoning By-Law to create a new office and research district and to place in the office and research district the area (heretofore in a Residence District A) bounded northerly by the north line of Riverside Road, westerly by the east line of Park Road, southerly by the location of the Boston & Albany Railroad and easterly by land of the Commonwealth of Massachusetts.

MATERIAL FACTS FOUND BY THE BOARD:

1. The parcel proposed for rezoning is at present in Zone Residence District A and approximates ten acres in area. It is bounded by the Massachusetts Turnpike to the north, Route 128 to the east, the Boston & Albany Railroad right-of-way to the south and Park Road to the west.
2. The land in question is in two separate ownerships, 7.44 acres being owned by James F. Fitzgerald, Richard C. Fitzgerald and Joan F. Putnam, and 2.64 acres owned by the trustees u/w of Benjamin S. Blake.
3. The parcel in question is presently vacant land except for two dwellings located in the northwest sector, both of which were built prior to the construction of Route 128 and the Massachusetts Turnpike.
4. The Fitzgeralds have informed the Planning Board of their desire to put the property to an office and research use. As a result the Board held a public hearing on March 11, 1965.
5. Neighboring uses are major highways (Route 128 and the Massachusetts Turnpike Interchanges) to the north and east, an er-banked railroad right of way to the south, and vacant land zoned for residences to the west. Of a total perimeter of approximately 4,000 feet, about 400 feet (or ten per cent) face a residential district across Park Road.
6. The building of Route 128 and the Massachusetts Turnpike have changed the character of the land in question, which has been zoned for residential uses since 1928.
7. The proposal would establish an office and research district which would allow fewer uses than those included in the present Business and Limited Industrial zones. The proposed district includes new provisions for control of lot size, setbacks, density of use, parking, signs, storage and loading.

OPINION AND RECOMMENDATIONS

1. The area in question has changed sufficiently in the Board's opinion since the zoning review and amendments in 1954 to warrant a change from the uses presently permitted.
2. The proposed office and research use in a location isolated from other residential areas to the extent described previously, is not, in the opinion of the Board, a use that would be detrimental to the general residential character of the town or the long established policy of keeping the town residential.
3. The Planning Board recommends that the proposal be accepted.

Respectfully submitted,

William A. Elliston, Chairman
George M. Lovejoy, Jr.
William C. Brown
Robert A. Townsend
WESTON PLANNING BOARD"

Mr. Francis Goodale Moved: That the zoning by-law, Article VIII of the by-laws, and the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, be amended as set forth in the six items appearing in Article 22 of the warrant for this meeting.

After his motion had been seconded, Mr. Goodale asked that Richard Wait be given privilege of the floor to speak for the motion. This request was granted by the Moderator, there being no objection by the voters present.

Mr. Russell Cox Moved: That paragraph (6) be deleted from the proposed by-law change. Mr. Cox's motion was carried by voice vote.

Mr. Edmund Walsh moved the previous question on Mr. Goodale's motion as amended. Mr. Walsh's motion was seconded and carried by a two-thirds vote.

The amended motion failed to pass on a voice vote.

At 11:20 P.M., upon motion duly made and seconded, it was unanimously voted that this meeting now adjourn to Wednesday, March 31, 1965, at 8 o'clock P.M. at the High School auditorium.

The Moderator declared the meeting adjourned accordingly.

Notice of such adjournment was immediately posted by the Town Clerk on the bulletin board at the Town Hall in accordance with Article I, Section 4, of the By-laws.

ADJOURNED ANNUAL TOWN MEETING

March 31, 1965

Pursuant to vote adopted on March 29, 1965, the adjourned annual town meeting was called to order in the High School Auditorium by Richard H. Field, Moderator, at 8:09 P.M., March 31, 1965, for further action under the warrant.

Mr. Field determined and announced the presence of a quorum.

Article 23. To amend the zoning by-law, Article VIII of the by-laws, substantially as follows:

(1) By adding at the end of section V, subsection B, a new paragraph consisting of the following sentence: In the business districts adequate maneuvering areas and loading facilities for trucks shall be provided on the lot for each building.

(2) By changing the title of section VI, subsection D, to read **BUSINESS AND LIMITED INDUSTRIAL DISTRICTS.**

(3) By adding to section VI, subsection D, the following new paragraph: On each lot in the business districts one parking space shall be provided for each 175 square feet or fraction thereof of the total area

of all floors of any building or buildings or of any addition or additions to a building or buildings to be erected on that lot. The board of appeals, by special permit in each instance, may allow exceptions to the foregoing requirements of this paragraph as to parking space where unusual circumstances are involved or where a literal enforcement of such requirements would involve substantial hardship or practical difficulties, and where desirable relief may be granted without substantially derogating from the intent or purpose of such requirements; and in granting such a permit the board may impose reasonable safeguards, conditions and limitations and may require reasonable security for their observance.

Mr. William C. Brown read and filed with the Town the following report:

"March 23, 1965

Richard H. Field, Esquire
Moderator
Weston Town House
Weston, Massachusetts

Dear Sir:

In accordance with General Laws, Chapter 40A, Section 6 as amended, the Weston Planning Board hereby submits to the Weston Town Meeting its final report respecting a proposal, on which the Board held a public hearing on March 16, 1965, to amend the zoning by-law to provide off street parking and loading areas in Business and Limited Industrial districts.

Space for the parking of cars, and for maneuvering and loading areas for trucks in the business districts of the town is inadequate. The problem is particularly acute in Weston center where the need for parking is expected to grow as the number of dwelling units in the town, and the population, increases.

The problem of parking space provision in the business districts and limited industrial districts is being given consideration in the Master Plan Study as one of the elements of a broader study of the planning needs of the town. It is the intention of the Planning Board to give highest priority this spring to the preparation of a comprehensive plan for further development of the town center; and for study of any changes in the zoning by-laws that may seem advisable to control and effect this development.

Mr. Everett Schwartz, a resident of the town, acting within his rights as a citizen and voter, has requested that immediate action be taken with respect to parking and loading provisions, and after discussion with the Board of Selectmen and with the Planning Board, introduced a proposal to place an article on the warrant for town meeting, to amend the zoning by-law to include these provisions in the business and limited industrial districts. This proposal was drafted into formal language by town counsel and the Planning Board, and a public hearing was held on March 16, 1965.

The Planning Board believes that there should be provision for off street parking and loading areas in the Business and Limited Industrial districts of the town. In the absence of a comprehensive plan the Board recommends approval of the proposal only as an interim measure while more planning studies are being carried forward which may indicate the need for further changes in the zoning by-law.

Respectfully submitted,

William A. Elliston, Chairman
William C. Brown
H. Kenneth Fish
George M. Lovejoy, Jr.
Robert A. Townsend
WESTON PLANNING BOARD"

Voted: That the zoning by-law, Article VIII of the by-laws, be amended as set forth in Article 23 of the warrant for this meeting.

This vote was adopted by a vote of 352 in the affirmative and 12 in the negative.

Article 24. To amend the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, Article VIII of the by-laws, by placing in a limited industrial district certain land (formerly in a residence district B) of the Massachusetts Broken Stone Company containing 0.9 acre more or less, situated a short distance southeasterly of the intersection of the Clinton and Fitchburg Divisions of the Boston and Maine Railroad, and being the portion located in Weston of the parcel shown on a plan made by Charles H. Stimpson, Jr., Town Engineer, dated February 12, 1965, no. 2-3-10, entitled "Plan of a Parcel of Land of the Massachusetts Broken Stone Company".

Mr. Robert Townsend read and filed with the Town the following report:

"March 24, 1965

Richard H. Field, Esquire
Moderator, Weston Town House
Weston, Massachusetts

Dear Sir:

The Weston Planning Board hereby submits to the Weston Town Meeting its final report respecting a proposal to amend the Weston Zoning Map by placing in Limited Industrial District a 0.9 acre parcel of land that is now unzoned, as a result of a ruling by the Land Court in 1962 that the zoning of the land in Residence District "B", by the Zoning By-Law Amendment that Weston adopted in 1954, was invalid. The Board held a public hearing on the proposal on March 10, 1965 after publication of notice in the Town Crier on February 18 and in the Town Crier and the News Tribune on February 25, 1965.

The parcel in question has been owned since 1956 by the Massachusetts Broken Stone Company. It is located at the Weston-Waltham town line north of the Boston Post Road (Route 20), and is flanked easterly by Boston and Maine Railroad tracks and a Waltham Industrial District occupied by an oil tank farm, and bordered westerly by a parcel of the Broken Stone Company's property in Weston which includes its back pit, where it has conducted quarrying operations.

The rezoning of the 0.9 acre parcel as proposed would place it in the same zoning district as the adjoining land of the Massachusetts Broken Stone Company whose zoning, in Limited Industrial District, was also contested by the Company, but ruled valid by the Land Court.

The proposal would bring the only unzoned land in Weston under the controls and restrictions of the Zoning By-law which the Town has adopted for the protection of all residents and property owners. The parcel would be placed in the zoning district which is most consonant with the characteristics of the land.

Accordingly, the Board recommends that the zoning map on file in the office of the Town Clerk, entitled 'Zoning Map, Town of Weston, Massachusetts as Amended 1954', be amended as proposed.

Respectfully submitted,

William A. Elliston, Chairman

William C. Brown

H. Kenneth Fish

George M. Lovejoy, Jr.

Robert A. Townsend

WESTON PLANNING BOARD"

Mr. Robert Townsend Moved: That the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, Article VIII of the by-laws, be amended as set forth in Article 24 of the warrant for this meeting.

Mr. Richard Robinson Moved: That Article 24 be referred to the Planning Board for further study and for report to the next annual town meeting or to any special town meeting at which its consideration would be appropriate.

Mr. Robinson's motion was defeated by a voice vote.

Mr. Townsend's motion was then adopted by a vote of 288 in the affirmative and 95 in the negative.

Voted: That the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, Article VIII of the by-laws, be amended as set forth in Article 24 of the warrant for this meeting.

Article 25. To approve the recommendation of the special public library expansion committee that a new public library building be con-

structed on Lamson Park; to discharge that committee; to accept, or request the enactment of, legislation authorizing and providing for use of Lamson Park for public library purposes and transfer of the care, custody, management and control of Lamson Park to the board of library trustees for such purposes; and to authorize construction and equipping and furnishing, by a special committee, of a new public library building on Lamson Park and to appropriate money therefor.

Mr. Ronald Eames Moved: That the Town approve the recommendation of the special public library expansion committee that a new public library building be constructed on Lamson Park.

Mr. William Brine Moved: That the whole problem, including site, of expanding the plant and physical facilities of the public library be recommended to the special public library expansion committee established in 1964.

After discussion, Mr. Norman B. Saunders moved the previous question on Mr. Brine's motion; Mr. Saunder's motion was seconded and adopted by a two-thirds vote. Mr. Brine's motion was then defeated by a vote of 191 in the affirmative and 205 in the negative.

Mr. Eames' motion was carried by a vote of 213 in the affirmative and 192 in the negative.

Voted (1): That the Town approve the recommendation of the special public library expansion committee that a new public library building be constructed on Lamson Park.

Voted (2): That the Town accept Acts of 1965, chapter 151, authorizing transfer of the care, custody, management and control of Lamson Park to the board of library trustees for public library purposes; and that such transfer be made.

This vote was adopted by a vote of 196 in the affirmative and 122 in the negative.

Mr. Grant M. Palmer, Jr., Moved: That a special public library building committee of five citizens of the Town be established with full authority to cause the construction and original equipping and furnishing of a new public library building on Lamson Park—that the committee continue in office until discharged by the Town—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the sum of \$15,000.00 be appropriated for the use and purpose of the committee.

Mr. Kenneth Bennett Moved: That Mr. Palmer's motion be amended by striking out the words "on Lamson Park". Mr. Bennett's amendment was defeated on a voice vote.

Mr. Palmer's motion was then carried on a voice vote.

Voted (3): That a special public library building committee of five citizens of the Town be established with full authority to cause the construction and original equipping and furnishing of a new public library building on Lamson Park—that the committee continue in office until discharged by the Town—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the

sum of \$15,000.00 be appropriated for the use and purpose of the committee.

Voted (4): That the special public library expansion committee established in 1964 be discharged with the thanks of the Town for the committee's services.

The meeting was dissolved at 11:25 P.M.

SPECIAL TOWN MEETING - JUNE 10, 1965

Pursuant to a warrant duly served a special town meeting was called to order in the auditorium of the Senior High School at 8 P.M. by Richard H. Field, Moderator. After determining and announcing the presence of a quorum, the Moderator read the warrant.

Article 1. To vote that Acts of 1955, chapter 223, inserting in chapter 262 of the General Laws section 53C providing for compensatory time off or additional pay for certain police officers attending court as witnesses for the Commonwealth in criminal cases, take full effect in Weston.

Voted: That Acts of 1955, chapter 223, inserting in chapter 262 of the General Laws section 53C providing for compensatory time off or additional pay for certain police officers attending court as witnesses for the Commonwealth in criminal cases, take full effect in Weston.

Article 2. To appropriate additional money for the acquisition of certain lands and interests in lands situated in the Bogle Street-Wellesley Street area for the purposes of a public playground or recreation center under the authority of the vote adopted under Article 16 of the warrant at the town meeting held on March 27, 1961.

Voted: That this article be passed over and so disposed of.

Article 3. To establish a special committee to study and investigate the use of pesticides for the control of insects and other purposes, and to appropriate money for the use and objects of such committee.

Voted: That a special pesticides study committee of five citizens of the Town be established (and continue in office until discharged by the Town) to study and investigate the use of pesticides for the control of insects and other purposes, and to report to the Town—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the sum of \$500.00 be appropriated from available funds for the use and objects of the committee.

Article 4. To appropriate money, to be provided by borrowing and/or by taxation and/or from other sources, for the construction and original equipping and furnishing of an addition to the Town's Senior High School, and to authorize the issuing of bonds or notes.

Voted: That the additional sum of \$1,270,000.00 be appropriated for the use of the special Senior High School addition committee for the construction and original equipping and furnishing of an addition to the Town's Senior High School (increasing the floor space thereof) pursuant to the vote adopted at a town meeting on March 30, 1964, under

Article 21 of the warrant; and that, with the approval of the State emergency finance board so far as required, said sum of \$1,270,000.00 be raised by borrowing outside the statutory limit under the authority of Acts of 1948, chapter 645, as amended, to which end the town treasurer, with the approval of the selectmen, be authorized to prepare, issue, and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loans or loans, all particulars as to the form, issue, and sale of said bonds or notes, their annual maturities, and the rate and times of payment of interest on them.

This vote was adopted by a vote of 217 in the affirmative and 78 in the negative.

Article 5. To establish a special committee to carry out remodeling and alterations in the Town's Senior High School, and to appropriate money for the use and purpose of such committee.

Voted: That a special Senior High School alterations committee of five citizens of the Town be established with full authority to carry out remodeling and alterations in the Town's Senior High School in connection with the addition thereto—that the committee continue in office until discharged by the Town—that the moderator appoint the members of the committee and fill any vacancies in its membership—and that the sum of \$5,000.00 be appropriated from available funds for the use and purpose of the committee.

At 10:33 P.M., upon motion duly made and seconded, the meeting was dissolved.

**THE FOLLOWING SELECTED VOTES WERE ADOPTED
BY THE BOARD OF SELECTMEN IN 1965**

January 5, 1965:

Voted to accept the proposal of Bliss-Gamewell, a division of E. W. Bliss Company, Newton, Mass., submitted pursuant to notice to bidders advertised in The News Tribune, Waltham, Mass., December 23, 1964, for furnishing and installing fire alarm equipment in fire headquarters for the sum of \$16,895.00. Further voted to authorize the preparation of contract in accordance with the proposal and submission of contract to E. W. Bliss Company for signature.

January 12, 1965:

The Board considered laying out Fairview Road, Surrey Lane, Lawrence Road, Country Drive, Black Oak Road, Nobscot Road, and Overlook Drive as public town ways in whole or in part. Voted that written notices of intention to make such layouts and of hearings to be held thereon at the Town Hall on Saturday, February 13, 1965, be served by a police officer in behalf of the board.

February 13, 1965:

Pursuant to notices issued under date of February 4, 1965 the board held hearings at the Town Hall on the proposed layouts of Fairview Road, Country Drive, Lawrence Road, Surrey Lane, Black Oak Road, Nobscot Road and Overlook Drive.

March 2, 1965:

Voted to approve and sign contract between Town of Weston and E. W. Bliss Company for furnishing and installing fire alarm equipment in fire headquarters.

March 15, 1965:

Voted to accept the proposal of West End Chevrolet, Inc., of Waltham, Mass., dated March 10, 1965, submitted pursuant to notice to bidders advertised March 5, 1965, for furnishing in accordance with Notice to Bidders, Information and Instructions to Bidders and Specifications a 1965 Model Chevrolet station wagon for use of the Police Department for the sum of \$2,550.80 less trade-in allowance of \$876.80 for used 1964 Ford Country Sedan, making a net cost to the Town of Weston of 1,674.00. This was the lowest net bid received pursuant to advertising as indicated above.

March 17, 1965:

Voted to adopt and sign the warrant for the annual town meeting to be held on Saturday, March 27, 1965 to act on Article 1, and on Monday, March 29, 1965, to act on the remaining Articles, and that attested copies thereof be posted at the Town Hall, at the Kendal

Green railroad station and on the town bulletin board at the junction of South Avenue and Newton Street. The warrant was accordingly signed.

A report having been received from the Planning Board concerning proposed layouts of Fairview Road, Country Drive, Lawrence Road, Surrey Lane, Black Oak Road, Nobscot Road and Overlook Drive it was **voted** to adopt, sign and file in the office of the town clerk seven layout orders for such ways and the plans made a part of the orders. The orders and plans were signed and filed accordingly.

March 30, 1965:

Voted to authorize a request to Director of Civil Service for a special examination for police entrance with maximum age raised to 40.

Voted to amend "Statement of Policy with Respect to Sick Leave for Employees of Town of Weston" by striking out paragraph A entitled "Basis of Eligibility and Accumulation" and substituting therefor the following new paragraph:

A. Basis of Eligibility and Accumulation

All permanent employees and all employees holding temporary appointments who have completed six months service on a full-time basis shall be entitled to sick leave with pay on the basis of one working day for each full month of service plus one day at the completion of four months of service for a total of fifteen (15) days per year until a maximum credit of one hundred twenty (120) days has been reached. Credit of sick leave shall accrue to employees on the first day of the month following completion of required service. In the case of temporary employees no sick leave shall accrue as the result of the first six months of full-time service.

April 16, 1965:

Voted to accept the proposal of West End Chevrolet, Inc. of Waltham, Mass. submitted pursuant to notice to bidders advertised in The News Tribune, Waltham, Mass., April 8, 1965, for furnishing in accordance with Notice to Bidders, Information and Instructions and Specifications one new 1965 model Chevrolet station wagon for use of the Police Department for the sum of \$2,550.80 less trade-in allowance of \$675.80 for used 1964 Ford Country Sedan, making a net cost to the Town of Weston of \$1,875.00. This was the lowest net bid received pursuant to advertising as indicated above.

April 23, 1965:

Voted, in accordance with the provisions of General Laws, Chapter 138, Section 34B, and applicable rules and regulations thereunder, to authorize issuance of Liquor Purchase Identification cards on behalf of

the Selectmen as licensing authority by Miss Margaret E. Berry, Mrs. Carter M. Bottjer and Mrs. Meriel V. Draper.

Voted to approve the recommendation of Chief of Fire Department for acceptance of the proposal of Abbott Motors, Inc. of Waltham, Mass. dated April 23, 1965, submitted pursuant to notice to bidders advertised in The News Tribune, Waltham, Mass., April 15, 1965 for furnishing in accordance with Notice to Bidders, Information and Instructions and Specifications a 1965 model Ford fire alarm truck for use of the Fire Department for the sum of \$2,964.74 less trade-in allowance of \$150.00 for 1951 Chevrolet truck making a net cost to the Town of Weston of \$2,814.74. This was the lowest net bid received pursuant to advertising as indicated above.

Voted to approve conditions on which Whitney Tavern Realty Corp. offered to give a parcel of land adjacent to Cat Rock Recreation area to the Town of Weston for recreational uses. The conditions are 1) that the Town pay the expenses of conveying the property from the corporation to the Town and 2) that title be transferred on or before June 16, 1966. (Mr. Edward M. Dickson was not present at the time this vote was taken and by choice did not participate in the vote.)

April 27, 1965:

The Board considered seven orders of taking by eminent domain pertaining to Fairview Road, Overlook Drive, Country Drive, Lawrence Road, Surrey Lane, Black Oak Road and Nobscot Road, recently laid out and accepted as public town ways. It was **voted** to adopt and sign such orders and to file them in the office of the Town Clerk.

Further **voted** that within thirty days the town counsel record and register at the registry of deeds certified copies of the seven orders of taking and of plans referred to therein.

Further **voted** that upon such recording and registration entries be made upon the seven ways.

May 11, 1965:

Voted that the Town Treasurer with the approval of the Selectmen borrow \$400,000 by the issue and sale of notes in anticipation of revenue as authorized by vote of the annual town meeting held on March 29, 1965 under Article 3.

Voted that five notes, three in the amount of \$100,000 each and two in the amount of \$50,000 each, authorized to be issued by vote of the Town duly adopted March 29, 1965, and by the vote of the Selectmen earlier at this meeting, shall be issued, shall be dated May 11, 1965, shall mature November 10, 1965, that the interest rate on said notes shall be fixed at 2.05 per cent per annum discounted at date of issue and that the Director of Accounts of the Bureau of Accounts of the Commonwealth shall certify as to the genuineness of said notes. Further **voted** to approve the sale of said notes (nos. 411-415, inclusive) to Boston

Safe Deposit and Trust Company at par plus a premium of \$11.00 less interest discounted to date of maturity and that the Town Treasurer be and she hereby is authorized to deliver said notes to the aforesaid purchaser. Further voted to sign the said notes (nos. 411-415) which were accordingly signed.

May 18, 1965:

Voted to approve and authorize the Chairman to sign on behalf of the Town a contract in triplicate between Town of Weston and Massachusetts Hospital Service, Inc. and Massachusetts Medical Service, Inc. (Blue Cross-Blue Shield) for increased benefits for group hospital, medical and surgical insurance for town employees effective June 1, 1965, expiring December 1, 1965, under the provisions of Chapter 32B of the General Laws. The contract was accordingly signed by the Chairman of the Board of Selectmen.

May 25, 1965:

Voted to adopt and sign the warrant for a special town meeting to be held on June 10, 1965, and that attested copies thereof be posted at the Town Hall, at the Kendal Green railroad station and on the town bulletin board at the junction of South Avenue and Newton Street. The warrant was signed accordingly.

June 1, 1965:

Voted to accept the proposal of Massachusetts Broken Stone Company dated May 27, 1965, submitted pursuant to Notice to Bidders advertised May 19, 1965, in The News Tribune, Waltham, Mass. for furnishing bituminous concrete mix for highway purposes to various locations in the Town of Weston for the unit prices of \$5.00 per net ton at the supplier's plant and \$5.50 per net ton delivered to various locations in Weston. This was the lowest bid received. Further voted to authorize the preparation of contract and forwarding to the company for execution.

Voted that the Board of Selectmen will not officially endorse any private organization or project and will issue no public statement or proclamation except in connection with matters which are of direct concern to local government.

June 14, 1965:

Voted that the Town Treasurer with the approval of the Selectmen borrow \$50,000 of the \$75,000 authorized by vote of the annual town meeting, March 29, 1965, under article 8 for laying or relaying water mains not less than six inches but less than sixteen inches in diameter by the issue and sale of a note or notes.

Proposals for the purchase of the \$50,000 note were received. The bid of Newton-Waltham Bank and Trust Company for purchase of the

note at an interest rate of 2.15 per cent per annum and a price of 100 plus a premium of \$1.00 and accrued interest to date of delivery being considered to be the lowest and most favorable bid, on motion duly made and seconded it was **voted** that one note in the amount of \$50,000, authorized to be issued by vote of the Town duly adopted March 29, 1965, and by vote of the Selectmen earlier at this meeting shall be issued, shall be dated July 1, 1965, shall mature July 1, 1966, that the interest rate on said note shall be fixed at 2.15 per cent per annum, and that the Director of Accounts of the Bureau of Accounts of the Commonwealth shall certify as to the genuineness of said note. Further **voted** to approve the sale of said note (no. 417) to Newton-Waltham Bank and Trust Company at a price of 100 plus \$1.00 premium and accrued interest to date of delivery and that the Town Treasurer be and she hereby is authorized to deliver said note to the aforesaid purchaser. Further **voted** to sign said note (No. 417) which was accordingly signed.

June 29, 1965:

Voted that the Town Treasurer with the approval of the Selectmen borrow \$500,000 by the issue and sale of notes in anticipation of revenue as authorized by vote of the annual town meeting held on March 29, 1965, under Article 3.

That five notes, each in the amount of \$100,000 authorized to be issued by vote of the Town duly adopted March 29, 1965, and by vote of the Selectmen earlier at this meeting shall be issued, shall be dated July 9, 1965, shall mature November 5, 1965, that the interest rate on said notes shall be fixed at 2.04 per cent per annum discounted at date of issue, and that the Director of Accounts of the Bureau of Accounts of the Commonwealth shall certify as to the genuineness of said notes.

Further **voted** to approve the sale of said notes to Newton-Waltham Bank and Trust Company at par less interest discounted plus premium of \$1.00 and that the Town Treasurer be and she hereby is authorized to deliver said notes to the aforesaid purchaser.

Further **voted** to sign the said notes which were accordingly signed.

July 6, 1965:

Voted that the Traffic Rules and Orders of the Town of Weston adopted by the Board of Selectmen, September 10, 1956, are hereby amended as follows:

Article III is amended by striking out Section 4 and substituting therefor the following new Section 4.

Section 4. Location of Bus Stops and Taxi Stands. Location of Bus Stops and Taxi Stands shall be specified by the Board of Selectmen.

July 13, 1965:

Voted to accept the proposals of Quincy Oil Company dated July 7, 1965, submitted pursuant to notice to bidders advertised June 28, 1965, in The News Tribune, Waltham, Massachusetts, for furnishing fuels for town buildings for the year ending June 30, 1966 as follows:

No. 6 fuel oil at the posted tank-car price for the Boston Market as published in the New York Journal of Commerce for the day of delivery plus a firm increment of \$.0034 per gallon.

No. 5 fuel oil at the posted tank-car price for the Boston Market as published in the The New York Journal of Commerce for the day of delivery less a firm increment of \$.20 per barrel and less a temporary voluntary discount of \$.10 per barrel in effect on the date of the proposal.

No. 6 fuel oil at the posted tank-car price for the Boston Market as published in the New York Journal of Commerce for the day of delivery less a firm increment of \$.146 per barrel and less a temporary voluntary discount of \$.10 per barrel in effect on the date of the proposal.

These were the lowest net bids received pursuant to advertising.

Voted to accept the proposal of Tidewater Oil Corporation dated July 7, 1965, submitted pursuant to notice to bidders advertised July 1, 1965, in The News Tribune, Waltham, Massachusetts, for furnishing for the year ending June 30, 1966, either premium grade Flying A gasoline at \$.025 per gallon above the major companies' posted commercial consumers' tank-wagon price for regular grade gasoline in the Boston market less a firm increment of \$.06775 per gallon plus Commonwealth of Massachusetts tax of \$.065 per gallon, or regular grade Flying A gasoline at the major companies' posted commercial consumers' tank-wagon price for the Boston market minus \$.05445 per gallon plus Commonwealth of Massachusetts tax of \$.065 per gallon.

Voted to authorize sale by Superintendent of Streets to Schwartz Auto Parts, Marlboro, Massachusetts, of 1935 Mack truck for junk for the sum of \$100.

July 20, 1965:

Voted to approve and signed accordingly a Memorandum of Agreement with State Department of Public Works in the amount of \$1,500 for Chapter 90 maintenance work on North Avenue.

August 16, 1965:

Voted to establish, effective on and after September 1, 1965, one public taxi stand on Boston Post Road along northerly side in front of premises numbered 483.

Voted that the Town Treasurer with the approval of the Selectmen borrow \$20,000 authorized by vote of the annual town meeting, March 30,

1964, under Article 26, for an addition to the Town's Municipal Garage by the issue and sale of a note or notes.

Proposals for the purchase of two \$10,000 notes were received. The bid of New England Merchants National Bank for purchase of the two notes at an interest rate of 2.4 per cent per annum and a price of 100 plus a premium of \$6.00 and accrued interest to date of delivery being considered to be the lowest and most favorable bid, on motion duly made and seconded it was **voted** that two notes in the amount of \$10,000 each, authorized to be issued by vote of the Town duly adopted March 30, 1964, and by vote of the Selectmen earlier at this meeting, shall be issued, shall be dated September 15, 1965, and one shall mature September 15, 1966 and one shall mature September 15, 1967, that the interest rate on said notes shall be fixed at 2.4 per cent per annum payable semi-annually and that the Director of Accounts of the Bureau of Accounts of the Commonwealth shall certify as to the genuineness of said notes.

Further **voted** to approve the sale of said notes to New England Merchants National Bank at a price of 100 plus \$6.00 premium and accrued interest to the date of delivery and that the Town Treasurer be and she hereby is authorized to deliver said notes to the aforesaid purchaser. Further **voted** to sign the said notes which were accordingly signed.

August 24, 1965:

Voted to accept the proposal of International Harvester Company, Boston, Massachusetts, dated August 20, 1965, submitted pursuant to notice to bidders advertised August 13, 1965, in The News Tribune, Waltham, Massachusetts for furnishing in accordance with Notice to Bidders, Instructions and Specifications a 1965 model R-185 International Truck with dump body for the Highway Department for the sum of \$6,166.51.

August 31, 1965:

The board considered bids received on Wednesday, August 25, 1965, for construction of an addition to the Town's municipal garage at 190 Boston Post Road By-Pass. **Voted** to award the contract to the low bidder J. J. Bonavire Co., Inc., of Natick, Mass. and to authorize preparation of contract documents to be sent to the bidder for execution

Voted that the Town Treasurer with the approval of the Selectmen borrow \$100,000 by the issue and sale of a note in anticipation of serial loan for the purpose of constructing an addition to Senior High School as authorized by vote of special town meeting held on June 10, 1965, under article 4.

Voted that one note in anticipation of serial loan (under authority of General Laws, Chapter 44, Section 17) authorized to be issued by

vote of Town duly adopted June 10, 1965, and by vote of the Selectmen earlier at this meeting shall be issued, in the amount of \$100,000, shall be dated September 15, 1965, shall mature December 1, 1965, that the interest rate on said note shall be fixed at 2.05 per cent per annum payable at maturity, that the interest shall be pro-rated if note is paid off before December 1, 1965, and that the Director of Accounts of Bureau of Accounts of the Commonwealth shall certify as to the genuineness of said note. Further voted to approve the sale of said note to First National Bank of Boston at par and that the Town Treasurer be and she hereby is authorized to deliver said notes to the aforesaid purchaser.

September 14, 1965:

Voted to adopt and sign Special Speed Regulation applying to Oak Street, Conant Road, Merriam Street, Concord Road, Church Street, School Street, Newton Street, Ash Street and Cliff Road. The regulation was accordingly signed. Further voted to forward Special Speed Regulation to Department of Public Works for approval.

October 5, 1965:

Voted to approve and sign a contract between Town of Weston and Barnes Engineering Company, Inc., of Newton, Mass. for engineering studies and plans for the layout and reconstruction of Brown Street for a maximum sum of \$1,950.00.

October 13, 1965:

Voted to accept the proposal of Brooks-Skinner Steel Building Company dated October 6, 1965, submitted pursuant to notice to bidders advertised in The News Tribune, Waltham, Mass., October 1, 1965, for furnishing and erecting in accordance with Instructions to Bidders, Contract and Specifications a metal storage building for use of the Fire Department for the sum of \$1,985.00. This was the lowest bid received. Further voted to authorize preparation of contract and related bonds for forwarding to the bidder for execution.

Voted to accept the proposal of Timberland Machines, Inc., of Lancaster, New Hampshire, dated September 29, 1965, submitted pursuant to notice to bidders advertised September 28, 1965, for furnishing one sidewalk snowplow, Bombardier model S/W 48" with Anderson SW 38/v model plow, in accordance with Notice to Bidders, Information and Instructions to Bidders and Specifications for the sum of \$5,095. delivered to Town of Weston.

Voted to approve and authorize chairman to sign a renewal contract in triplicate between Town of Weston and Massachusetts Hospital Service, Inc. and Massachusetts Medical Service, Inc. (Blue Cross-Blue Shield) for group blanket hospital, medical and surgical insurance for town employees for the year December 1, 1965 to December 1, 1966, under the provisions of Chapter 32B of the General Laws. The contract was accordingly signed by the Chairman.

October 26, 1965:

Voted to approve and sign a resolution to be submitted to Housing and Home Finance Agency requesting termination of 1947 agreement covering an advance of funds for architectural services in connection with plans for a new elementary school which were never used. The resolution was accordingly signed.

The Board received and considered the recommendation of the Department of Public Works that the low bid for reconstruction of a section of North Avenue between Church Street and the Waltham line be accepted. **Voted** to accept the low bid submitted by J. J. O'Brien & Sons, Inc. for reconstruction of a section of North Avenue and to sign contract with the bidder as recommended. The contract was accordingly signed.

Voted to approve for removal of ice and snow, upon petition of the abutters, the private ways Whitney Tavern Road and Overlook Drive (extension of public way).

November 2, 1965:

Voted to approve for removal of ice and snow, upon petitions of the abutters, the private ways Round Hill Road, Westerly Road, Stony Brook Road, Middle Way and Young Road.

November 4, 1965:

The meeting considered the \$1,270,000 Weston School Project Loan, Act of 1948, No. 12, bonds, authorized to be issued by vote of said Town duly adopted under Article 4 at the June 10, 1965 Special Town Meeting.

Voted that the action taken by the Town Treasurer in advertising the \$1,270,000 Weston School Project Loan, Act of 1948, bonds authorized by vote of the Town adopted under Article 4 at the June 10, 1965 Special Town Meeting, as amended, be and it hereby is ratified, confirmed, approved and adopted; That said bonds shall be dated November 1, 1965, shall be in the denomination of \$5,000 each, shall mature \$85,000 on November 1 in each of the years 1966 to 1979, inclusive, and \$80,000 on November 1, 1980, and shall be numbered 1 to 254, inclusive; That The First National Bank of Boston shall certify as to the genuineness of said bonds; That the interest rate on said bonds be and it hereby is fixed at 3.20 per cent, per annum payable semi-annually; and That the bid of The National Shawmut Bank of Boston, Lamb & Co. and Rand & Foster of Boston, Massachusetts, to purchase said bonds, bearing interest at the rate of 3.20 per cent. per annum payable semi-annually, at 100.2735 and interest accrued to date of delivery, being the best bid received for said bonds, be and it hereby is accepted, and the Town Treasurer be and she hereby is authorized to deliver said bonds to the aforesaid purchaser or order against payment therefor.

November 30, 1965:

Voted to accept the proposal of Norwood Printing Company, Inc., of Norwood, Mass., dated November 29, 1965, submitted pursuant to

notice to bidders advertised November 15, 1965, in The News-Tribune, Waltham, Mass., for printing the 1965 Weston Town Report at the unit prices set forth in the proposal for an estimated cost of \$2,641.75 based on the number of pages, at each price, assumed for bid comparison purposes only.

Voted to award renewal contract to Boston Mutual Insurance Company for group life and accidental means death and dismemberment insurance for town employees for the year December 1, 1965 to December 1, 1966, under the provisions of Chapter 32B of the General Laws.

Voted to approve for removal of ice and snow, upon petition of the abutters the private ways Bittersweet Lane and Stillmeadow Road.
